*English Language* Jonathan Culpeper, Paul Kerswill, Ruth Wodak, Anthony McEnery, Francis Katamba, 2018-01-16 The second edition of this hugely successful textbook provides comprehensive coverage of a wide range of topics in theoretical and applied linguistics. Written by leading academics in the field, this text offers a firm grounding in linguistics and includes engaging insights into current research. It covers all the key areas of linguistic analysis including phonetics, morphology, semantics and pragmatics, and core domains of study comprising the history of the English language, regional and social variation, style and communication, and interaction. This is an invaluable resource for both undergraduate and postgraduate students on English language and linguistics degree programmes. New to this Edition: Seven new chapters covering topics such as second language acquisition, corpus linguistics and research methods. A number of chapters have been substantially revised, including those on World Englishes, Literacies in Cyberspace and TEFL, TESOL and Linguistics. **Belarus** Nigel Roberts, 2015-05-01 With one foot still in its Soviet past, Belarus might not be the most obvious choice for travellers, but its isolation is at the heart of its appeal. Those who venture here will find a history rich in heroism and tragedy set amid a landscape of primeval birch forests, snow-edged lakes and cornflower fields replete with golden orbed Russian Orthodox churches and villages where age-old traditions still hold sway. While it's easy for visitors to feel as though they've slipped into another time and dimension, they'll encounter singular hospitality and a genuine welcome. Nigel Roberts' Belarus, the only standalone guide in English to the country, combines detailed background information with expert practical advice for those seeking to take the road less travelled. **UPSTART (WYSKOCHKA)** JB Woods, 2020-01-13 When the body of a Government employee from GCHQ is found in an alleyway, the Firm is short on manpower and Hunter is persuaded to act as Local Field Controller, but he discovers it is more than a wayward employee with wild fantasies. He uncovers Operation Upstart Wyskochka, a vicious nuclear plan hatched in Russia designed to divert world attention and allow them to expand into old USSR territory under the pretext of security. With the help of the local Police, Hunter is able to assemble the jigsaw of proposed devastation both in the UK and the US and with the blessing of the Firm, he sets out to bring an end to the evil.
