Reads *Children's Literature and Intergenerational Relationships* Justyna Deszcz-Tryhubczak, Irena Barbara Kalla, 2021-04-23 *Children's Literature and Intergenerational Relationships Encounters of the Playful Kind* explores ways in which children's literature becomes the object and catalyst of play that brings younger and older generations closer to one another. Providing examples from diverse cultural and historical contexts, this collection argues that children's texts promote intergenerational play through the use of literary devices and graphic formats and that they may prompt joint play practices in the real world. The book offers a distinctive contribution to children's literature scholarship by shifting critical attention away from the difference and conflict between children and adults to the exploration of inter-age interdependencies as equally crucial aspects of human life, presenting a new perspective for all who research and work with children's culture in times of global aging.

Fictional Practices of Spirituality I Leonardo Marcato, Felix Schniz, 2023-11-02 *Fictional Practices of Spirituality* provides critical insight into the implementation of belief, mysticism, religion, and spirituality into worlds of fiction, be it interactive or non-interactive. This first volume focuses on interactive virtual worlds, may that be the digital realms of video games and VR applications or the imaginary spaces of life action role playing and soul searching practices. It features analyses of spirituality as gameplay facilitator, sacred spaces and architecture in video game geography, religion in video games and spiritual acts, and their dramaturgic function in video games, tabletop or LARP, among other topics. The contributors offer a first time ever comprehensive overview of play rites as spiritual incentives and playful spirituality in various medial incarnations.

Bowker's Complete Video Directory, 2000 **Storytelling: Global Reflections on Narrative** Tracy Ann Hayes, Theresa Edlmann, Laurinda Brown, 2019-05-15 This book is a collection of papers from an international interdisciplinary conference focusing on storytelling and human life. The chapters in this volume provide unique accounts of how stories shape the narratives and discourses of people's lives and work and those of their families and broader social networks. From making sense of history to documenting biographies and current pedagogical approaches to exploring current and emerging spatial and media trends, this book explores the possibilities of narrative approaches as a theoretical scaffold across numerous disciplines and in diverse contexts. Central to all the chapters is the idea of stories being a creative and reflexive means to make sense of people's past, current realities and future possibilities.
