My interest grew out of my previous work on the post socialist transformation foreign direct investment and regional economic development. While researching the economic and regional development effects of foreign direct investment I was increasingly drawn to the automobile industry because of the speed and depth of its transformation through foreign direct investment and its potentially very significant economic and regional development effects. In addition to working on the Central and East European automobile industry as a whole I became interested in detailed case studies of enterprise restructuring as I wanted to understand its complex nature and the role of different actors in the restructuring of the automobile industry. In order to achieve this goal I visited dozens of automotive enterprises especially in the Czech Republic (Czechia) to conduct in-depth interviews with key informants. I have also interviewed key informants at ministries automotive associations and academia and collected various secondary data and information. This book is the

outcome of this work In this endeavor I have benefited from various support The University Committee on Research and Creative Activity at the University of Nebraska at Omaha funded three field work sessions in Czechia to conduct interviews and research for this book
