Owens,2019-12-05 This volume offers the first comprehensive treatment of how the five canonical Greek novels represent slaves and slavery In each novel one or both elite protagonists are enslaved and Owens explores the significance of the genre s regular social degradation of these members of the elite Reading the novels in the context of social attitudes and stereotypes about slaves Owens argues for an ideological division within the genre the earlier novelists Xenophon of Ephesus and Chariton challenge and undermine elite stereotypes the three later novelists Longus Achilles Tatius and Heliodorus affirm them The critique of elite thinking about slavery in Xenophon and Chariton opens the possibility that these earlier authors and their readers included literate ex slaves The interests and needs of these authors and their readers shaped the emerging genre and not only made the protagonists slavery a key motif but also made slavery itself a theme that helped define the genre The Representation of Slavery in the Greek Novel will be of interest not only to students of the ancient novel but also to anyone working on slavery in the ancient world Disarming the Nation Elizabeth Young,1999-12-15 In a study that will radically shift our understanding of Civil War literature Elizabeth Young shows that American women writers have been profoundly influenced by the Civil War and that in turn their works have contributed powerfully to conceptions of the war and its aftermath Offering fascinating reassessments of works by white writers such as Harriet Beecher Stowe Louisa May Alcott and Margaret Mitchell and African American writers including Elizabeth Keckley Frances Harper and Margaret Walker Young also highlights crucial but lesser known texts such as the memoirs of women who masqueraded as soldiers In each case she explores the interdependence of gender with issues of race sexuality region and nation Combining literary analysis cultural history and feminist theory Disarming the Nation argues that the Civil War functioned in women s writings to connect female bodies with the body politic Women writers used

the idea of civil war as a metaphor to represent struggles between and within women including struggles against the cultural prescriptions of civility At the same time these writers also reimagined the nation itself foregrounding women in their visions of America at war and in peace In a substantial afterword Young shows how contemporary black and white women including those who crossdress in Civil War reenactments continue to reshape the meanings of the war in ways startlingly similar to their nineteenth century counterparts Learned witty and accessible *Disarming the Nation* provides fresh and compelling perspectives on the Civil War women s writing and the many unresolved civil wars within American culture today **Deus**
