Introduction

Slavery was a system that was adopted throughout America. The system was based on race whereby the whites were considered the superior race. The slaves were to serve their masters who were the whites. The slaves were owned and traded by their owners at will. The slaves, however, were strongly opposed to this system.

The slaves managed to resist the system and adopted their own way of living despite the harsh conditions that they were being put through by their tormentors. This paper discusses the challenges that the slaves encountered as well as their resistance and the relativity of slavery to gender.

How did the slaves resist their condition and create their own way of life

The slaves felt the need to live a good and comfortable life. Despite their lack of freedom and the numerous restrictions that were forced upon them, the slaves resisted their condition and managed to create their own way of life. The slaves still managed to start families despite the harsh conditions.

The slaves would marry, set up homes and eventually get children. This, however, was a big challenge and resulted in the children being regarded as the property of their owners. The family units even extended to the extended family. The marriages between the couples were done by their own people who presided over the ceremony in their cultural way (Foner 216).

Religion was still a very significant aspect in their lives. The slaves did not leave behind their religious beliefs. They still believed in the existence of an almighty spirit who they prayed to. In most cases, baptisms were done in secret. This baptism was presided over by themselves. An appointed leader was to preside over the ceremony. The slaves would go to the river to be baptized. They also taught their children about faith at an early age making them believe in the almighty (Foner 220).
