## **Nietzsche And Asian Thought:**

**Nietzsche and Asian Thought** Graham Parkes, 1996-06 Nietzsche's work has had a significant impact on the intellectual life of non Western cultures and elicited responses from thinkers outside of the Anglo American philosophical traditions as well. These essays address the connection between his ideas and philosophy. **Heidegger and Asian Thought** Graham Parkes, 1987-09-01 In 12 excellent essays by scholars East and West this collection explores the many dimensions of Heidegger's relation to Eastern thinking. Because of the quality of the contributions the eminence of the many contributors this volume must be considered an indispensable reference on the subject. Highly recommended. Choice **Nietzsche and Asian Thought** North American Nietzsche Society, 1993 *Philosophy Across Borders* Emma Ingala, Gavin Rae, 2024-11-14 This book brings into conversation geographically diverse theorists to question the meaning, purpose and place of conceptual borders in philosophy. It shows how contemporary theory is constituted by a dynamic practice in which the boundaries created to define it are simultaneously overcome in their establishment. Philosophy has often taken itself to be distinguished from and superior to alternative ways of thinking. To do so philosophical thinking has found itself rigidly affirming the need to think within borders to obtain conceptual clarity and certainty and to secure its own independent existence. The chapters in this volume call into question the need to retreat behind demarcated boundaries that mark the domain of philosophy proper to instead offer a performative account of how philosophy can creatively work across geographical, cultural, linguistic borders without foreclosing that analysis conceptually. In so doing the contributors tackle issues including the historical establishment of philosophical borders, the metaphysics of philosophical borders, the relationship between Western and non Western thinking, the ethics of transgressing borders and the political implications of Western rationality on and for non Western societies. *Philosophy Across Borders* will therefore be of interest to scholars and advanced students working in philosophy, aesthetics, critical theory, comparative philosophy, cultural studies, feminist theory, history of ideas, political theory and postcolonial studies. **Heidegger and Asian Thought** Graham Parkes, 2010-07-01 In the current resurgence of interest in Heidegger an important aspect of his thought has been neglected, namely his long standing interest in Asian philosophy. **Heidegger and Asian Thought** is the first book devoted to exploring this fascinating topic. It brings together essays by twelve scholars from India, China, Japan, Germany and the United States, most of which were written especially for this volume. The essays discuss Heidegger's thinking in relation to Vedanta, Taoism, Zen and Tibetan Buddhist philosophy. Heidegger's acquaintance with Asian thought, beginning from his familiarity with the Chuang tzu as early as 1930, is fully documented, including an account of his work on a partial translation of the Tao Te Ching into German. This book will be of interest not only to Heidegger scholars but also to students of Asian and comparative philosophy and religion. **Nietzsche and the Gods** Weaver Santaniello, 2001-10-05 I have slain all gods for the sake of morality. Friedrich Wilhelm Nietzsche. Although often regarded as an atheist who did not take religion seriously, Nietzsche in fact thought deeply about the gods and how they

functioned in the human psyche The son of a Lutheran pastor who dropped theology in college after only one semester Nietzsche was a profound religious thinker who devoted much of his writing to reevaluating the concept of god that prevailed in nineteenth century Germany As this volume demonstrates Nietzsche sharply discerned between the positive and negative aspects of various gods including the Christian God the Jewish God Yahweh the Greek gods especially Apollo and Dionysus and the Buddha The essays further touch upon Nietzsche s relationship to prominent religious thinkers of his time as well as his influence on later religious thinkers such as Martin Buber and Paul Tillich Wide ranging and diverse Nietzsche and the Gods will be indispensable to our continuing understanding of Nietzsche s thought and to the broader study of philosophy and religion

The Cambridge Companion to Nietzsche Bernd Magnus, Kathleen Marie Higgins, 1996-01-26 The significance of Friedrich Nietzsche for twentieth century culture is now no longer a matter of dispute He was quite simply one of the most influential of modern thinkers The opening essay of this 1996 Companion provides a chronologically organised introduction to and summary of Nietzsche s published works while also providing an overview of their basic themes and concerns It is followed by three essays on the appropriation and misappropriation of his writings and a group of essays exploring the nature of Nietzsche s philosophy and its relation to the modern and post modern world The final contributions consider Nietzsche s influence on the twentieth century in Europe the USA and Asia New readers and non specialists will find this the most convenient accessible guide to Nietzsche currently available Advanced students and specialists will find a conspectus of recent developments in the interpretation of Nietzsche

**Asian Thought on China's Changing International Relations** Emilian Kavalski, 2014-08-05 At the end of the Cold War commentators were pondering how far Western ideas would spread today the debate seems to be how far Chinese ideas will reach This volume examines Chinese international relations thought and practices identifying the extent to which China s rise has provoked fresh geo strategic and intellectual shifts within Asia

Nietzsche and Buddhism Sarah Jacob, 2025-09-04 The claim that Nietzsche was aware of Buddhist Vedic or Eastern thought more generally is uncontroversial However any stronger claims about the sphere of influence remain niche in Nietzsche studies Any non Western flavors in Nietzsche s writings are most often considered ornamental and wholly unnecessary in the quest to interpret what Nietzsche means To the contrary in Nietzsche and Buddhism How One Becomes What One Is Sarah Jacob argues that Nietzsche s work is further illuminated when seen as an endeavor that seriously engages with Buddhist ontology and that Nietzsche s philosophy marks a paradigm shift in Western thought because of this encounter Though the second half of this book offers a thorough comparative analysis between Nietzsche and Buddhism its validity rests upon the often understated importance of Indian thought for German intellectuals prior to and during Nietzsche s life Indeed the author argues that Nietzsche s philosophy of the future should be recognized as a transcultural contribution to the history of ideas one that has import for the perplexed global zeitgeist in the twenty first century
