Lasser,2019 Nothing defines the songs of the great American songbook more richly and persuasively than their urban sensibility During the first half of the twentieth century songwriter such as Harold Arlen Irving Berlin Dorothy Fields George and Ira Gershwin and Thomas Fats Waller flourished in New York City the home of Tin Pan Alley Broadway and Harlem Many of these remarkably deft and forceful creators were native New Yorkers Others got to Gotham as fast as they could Either way it was as if from their vantage point on the West Side of Manhattan these artists were describing America not its geography of politics but its heart to Americans and to the world at large In City songs and American life 1900 1950 renowned author and broadcaster Michael Lasser offers an evocative and probing account of the popular songs including some written originally for the stage or screen that America heard and sang and danced to during

the turbulent first half of the twentieth century Lasser demonstrates how the spirit of the teeming city pervaded these wildly diverse songs Often that spirit took form overtly in songs that portrayed the glamor of Broadway of the energy and jazz age culture of Harlem But a city bred spirit or even a specifically New York City way of feeling and talking also infused many other widely known and loved songs stretching from the early decades of the century to the twenties the age of the flapper bathtub gin and women s right to vote the Great Depression and finally World War II Throughout this remarkable book Lasser emphasizes how the soul of city life as echoes in the nation s songs developed and changed in tandem with economic social and political currents in America as a whole Dust jacket flap Best of Dubai Vol 1. ,20?? **NIGHT PEOPLE, Book 1 - Things We Lost in the Night** Larry J. The Gentrification of Nightlife and the Right to the City Laam Hae,2012 In The Gentrification of Nightlife and the
 Right to the City Hae explores how nightlife in New York City long associated with various subcultures of social dancing has
 been recently transformed as the city has undergone the gentrification of its space and the post industrialization of its

economy and society This book offers a detailed analysis of the conflicts emerging between newly transplanted middle class populations and different sectors of nightlife actors and how these conflicts have led the NYC government to enforce Quality of Life policing over nightlife businesses In particular it provides a deep investigation of the zoning regulations that the municipal government has employed to control where certain types of nightlife can or cannot be located Hae demonstrates the ways in which these struggles over nightlife have led to the gentrification of nightlife while infringing on urban inhabitants rights of access to spaces of diverse urban subcultures their right to the city The author also connects these struggles to the widely documented phenomenon of the increasing militarization of social life and space in contemporary cities and the right to the city movements that have emerged in response The story presented here involves dynamic and often contradictory interactions between different anti pro nightlife actors illustrating what actually existing gentrification and post industrialization looks like and providing an urgent example for experts in related fields to consider as part of a re theorization of gentrification and post industrialization
