Coherence and Divergence in Services Trade Law Rhea Tamara Hoffmann, Markus Krajewski, 2020-07-23. This book addresses topical questions concerning the legal framework of trade in services and assesses how these issues are dealt with in GATS and in selected preferential trade agreements. In addition, the chapters discuss whether the differences and similarities, if any, are evidence of greater coherence or greater divergence. The book combines the individual analyses to provide a more comprehensive picture of the current law on services trade liberalisation. A quarter of a century after the conclusion of the General Agreement on Trade and Services (GATS), international law on trade in services is still in a state of flux. On the one hand, countries increasingly conclude bilateral and regional trade agreements with sections on trade in services that aim at a further liberalisation of services trade. On the other, the GATS structure remains the dominant model and serves as the basis for many preferential trade agreements. In addition, new aspects such as electronic commerce, data protection and taxation are now emerging, while issues that had already manifested in the mid 1990s such as financial services regulation, labour mobility and telecommunications continue to be problematic. Usually, the debates focus on the question of whether preferential trade agreements serve as a stepping stone or stumbling block for trade liberalisation at the multilateral level. However, it can be assumed that rules on trade in services in preferential trade agreements will coexist with the global GATS regime for the foreseeable future. This raises the question of whether we are currently witnessing a drive towards greater coherence or more divergence in agreements on trade in services.

European Yearbook of International Economic Law 2023 Jelena Bäuml, Christina Binder, Marc Bungenberg, Markus Krajewski, Giesela Rühl, Christian J. Tams, Jörg Philipp Terhechte, Andreas R. Ziegler, 2024-10-17. The focus of volume 14 of the EYIEL is on Public Procurement and Competition Law in European and International Economic Law. Thus, the focus section provides a broad spectrum of contributions considering the interaction between public procurement law and WTO law, the role of RTAs, the inclusion of sustainability aspects as well as the influence of recent development and challenges such as the Covid 19 pandemic and climate change have on public procurement and competition policy. In its general section, the EYIEL considers Current Challenges, Developments and Events in European and International Economic Law. The Law & Politics of Brexit: Volume V Federico Fabbrini, 2024-03-12. The Trade Cooperation Agreement (TCA) is the treaty which regulates free trade and economic arrangements between the European Union (EU) and the United Kingdom (UK) post-Brexit. The treaty entered into force provisionally on 1 January 2021 and officially on 1 May 2021 and has governed trade relations between the parties since. This book brings together contributions by leading scholars in EU and international trade law, economics, and political science to provide a comprehensive interdisciplinary analysis of the TCA. It contextualizes the treaty and identifies several emerging political, economic, and security challenges which serve as the background to evolving EU-UK relations. The book also unpacks the treaty's complex provisions on customs and rules of origin, investments, services, and procurement, subsidies, fisheries, aviation, cooperation on energy, environment, health, social security, and on UK participation in EU programs. Furthermore, it provides an updated assessment of EU-UK disagreement on the implementation of the Protocol on Ireland/NI and considers the positive impact of the Windsor Framework in rebuilding trust between the parties and the possibilities to further expand EU-UK cooperation within the TCA and beyond.
