Zǐ Wěi Dòu Shù: Destiny Prediction the Chinese Way (English Edition) Dr. Mauro Purnomo Rahardjo,2024-05-24 The most important thing about the calculation of Z W i D u Sh is the role of the 4 transformation stars called S Hu Y o which becomes the elements of

transformation of the main stars according to the passage of time The transformation that occurs are colouring the dynamics of an individual s life based on the calculation of heavenly stem that mark the dimension of time from decade to decade and year to year The calculation of Z W i D u Sh is easier to understand as it does not involve complex interpretations of the interactions between elements as is done in the Bazi calculation The interpretation shown on the life chart is blunt or direct First published in 2010 the Indonesian version of this book has becomes one of the best sellers of its time Years later with the encouragement of the public Feng Shui loving friends and clients the Z W i D u Sh book was re published with a revised material for a more complete content and has finally been published in an English version This book is organized like an encyclopedia so that readers can look up the interpretations directly after knowing their M ng P n Map of Life In order to keep the information up to date this book has been revised with the most obvious addition being the interpretations and meanings of the main stars which changes due to the 4 S Hu Y o in each star Hopefully this book can add insight and improve the quality of life of its readers by achieving more luck and happiness also by avoiding bad or unlucky influences by anticipating them in advance
