## **The Making Of The Tunisian Revolution:**

**Making of the Tunisian Revolution** Nouri Gana, 2013-09-07 From late 2010 to the present day the Arab world has been shot through with insurrection and revolt As a result Tunisia is now seen as the unlikely birth place and exemplar of the process of democratisation long overdue in the Arab world Mixing political historical economic social and cultural analyses and approaches these essays reflect on the local regional and transnational dynamics together with the long and short term factors that when combined set in motion the Tunisian revolution and the Arab uprisings Above all the book maps the intertwined genealogies of cultural dissent that have contributed to the mobilisation of protesters and to the sustenance of protests between 17 December 2010 and 14 January 2011 and beyond

**Making of the Tunisian Revolution** Gana Nouri Gana, 2013-09-07 From late 2010 to the present day the Arab world has been shot through with insurrection and revolt As a result Tunisia is now seen as the unlikely birth place and exemplar of the process of democratisation long overdue in the Arab world Mixing political historical economic social and cultural analyses and approaches these essays reflect on the local regional and transnational dynamics together with the long and short term factors that when combined set in motion the Tunisian revolution and the Arab uprisings Above all the book maps the intertwined genealogies of cultural dissent that have contributed to the mobilisation of protesters and to the sustenance of protests between 17 December 2010 and 14 January 2011 and beyond

**The Tunisian Revolution and Democratic Transition** Mohammad Dawood Sofi, 2021-11-29 Drawing on the history of post independence Tunisia the book studies the evolution of al Nah ah as a political party in Tunisia and its role in a protracted struggle to shape the post authoritarian order along democratic lines It explores al Nah ah s relationship with the Tunisian state society and beyond that resulted in shaping its fluctuating expressions of ideology and practices State repression political participation or internal differentiation among other factors place an Islamic movement in this case al Nah ah in such a situation that demands a perpetual self re evaluation as well as implementation of ideology objectives and political programmes The study explains how the socio political setting in Tunisia demanded various ideologically opposite currents Islamic liberal or leftist to endure cross ideological cooperation either to contest authoritarian regimes or to engage in the political process It more importantly analyzes the trajectory of a gradual democratization process in the country and provides evidence explaining the impact and importance of a vibrant civil society building alliances and sharing of power The book provides comparative analytical attention to the primary sources on these issues to create a critical historiography It thus adds to the body of literature on the state society and politics in the MENA region and particularly targets students scholars and social scientists interested in understanding the nature of power and politics in Tunisia and beyond

**Ben Ali's Tunisia** Anne Wolf, 2023-02-21 Based on a wealth of new primary data this book offers the first account of the internal regime factors that ultimately caused the fall of Zine el Abidine Ben Ali s long dictatorship in Tunisia during the Arab Uprisings Anne Wolf s account challenges studies that focus on the role of mass mobilization alone and demonstrates that in the last decade

of Ben Ali's presidency dissent within his ruling party the Constitutional Democratic Rally mounted to such an extent that followers began challenging their own powerbroker The culmination of this was a secret coup d'état staged by regime figures against Ben Ali in January 2011 an event that has not previously been uncovered Wolf proposes a new theory of power and contention within ruling parties in authoritarian regimes to explain how dictators seek to fortify their rule and foster party political stability but also when why and how they succumb to internal contention and with what effect Gender, Textile Work, and Tunisian Women's Liberation Claire Oueslati-Porter, 2019-09-14 In this book author Claire Oueslati Porter describes her field research in Binzart Tunisia's sprawling factory zone and in the surrounding city She blends conventional ethnography with auto ethnography leading readers inside a textile factory among the women and men workers who navigate intensely gendered labor While there is pressure to adhere to gendered codes of behavior in the factory some women engage in subversive gender performances Oueslati Porter elucidates a phenomenon that is oft neglected in studies of women in the Middle East and North Africa gender queerness Further Oueslati Porter explores her own perceptions of being a researcher while also being a daughter in law in a Tunisian family and a mother to a toddler aged son while conducting field work This ethnography centralizes women's waged and unwaged labor in the understanding of women's rights Gender Textile Work and Tunisian Women's Liberation will be of interest to students and scholars of anthropology sociology women's gender and sexuality studies LGBTQ studies and Middle East and North Africa studies *Transition Towards Revolution and Reform* Sonia L. Aljanak, 2014-06-17 Compares the methods used by the secular leaders of Tunisia and Egypt to deal with revolution with the methods that the monarchs of Morocco and Jordan used to accommodate their people OCO's priority of reform It asks why some Arab Spring uprisings led to Law and Revolution Nimer Sultany, 2017 What is the effect of revolutions on legal systems What role do constitutions play in legitimating regimes How do constitutions and revolutions converge or clash Taking the Arab Spring as its case study this book explores the role of law and constitutions during societal upheavals and critically evaluates the different trajectories they could follow in a revolutionary setting The book urges a rethinking of major categories in political legal and constitutional theory in light of the Arab Spring The book is a novel and comprehensive examination of the constitutional order that preceded and followed the Arab Spring in Egypt Tunisia Libya Morocco Jordan Algeria Oman and Bahrain It also provides the first thorough discussion of the trials of former regime officials in Egypt and Tunisia Drawing on a wide range of primary sources including an in depth analysis of recent court rulings in several Arab countries the book illustrates the contradictory roles of law and constitutions The book also contrasts the Arab Spring with other revolutionary situations and demonstrates how the Arab Spring provides a laboratory for examining scholarly ideas about revolutions legitimacy legality continuity popular sovereignty and constituent power **The Age of Counter-Revolution** Jamie Allinson, 2022-05-26 Examines the Arab Spring seen as a series counter revolutions rather than failed revolutions in six Arab countries **The Adventures of the Constituent Power** Andrew Arato, 2017-11-30 This book

explores the democratic methods by which political communities make their basic law and the dangers associated with constitution making      *Routledge Handbook of the Arab Spring* Larbi Sadiki,2014-12-17 The self immolation of Mohammed Bouazizi in Tunisia in December 2010 heralded the arrival of the Arab Spring a startling yet not unprecedented era of profound social and political upheaval The meme of the Arab Spring is characterised by bottom up change or the lack thereof and its effects are still unfurling today The Routledge Handbook of the Arab Spring seeks to provide a departure point for ongoing discussion of a fluid phenomenon on a plethora of topics including Contexts and contests of democratisation The sweep of the Arab Spring Egypt Women and the Arab Spring Agents of change and the technology of protest Impact of the Arab Spring in the wider Middle East and further afield Collating a wide array of viewpoints specialisms biases and degrees of proximity and distance from events that shook the Arab world to its core the Handbook is written with the reader in mind to provide students practitioners diplomats policy makers and lay readers with contextualization and knowledge and to set the stage for further discussion of the Arab Spring      *A History of Modern Tunisia* Kenneth Perkins,2014-01-20 This book examines the history of Tunisia from the mid nineteenth century to the present with an emphasis on political social economic and cultural developments      *Political Aesthetics of Global Protest* Pnina Werbner,2014-07-30 From Egypt to India and from Botswana to London worker youth and middle class rebellions have taken on the political and bureaucratic status quo When most people can no longer earn a decent wage they pit themselves against the privilege of small wealthy and often corrupt elites A remarkable feature of the protests from the Arab Spring onwards has been the salience of images songs videos humour satire and dramatic performances This collection explores the central role the aesthetic played in energising the massive mobilisations of young people the disaffected the middle classes and the apolitical silent majority Discover how it fuelled solidarities and alliances among democrats workers trade unions civil rights activists and opposition parties

*Pacted Democracy in the Middle East* Hicham Alaoui,2022-05-17 This book provides a new theory for how democracy can materialize in the Middle East and the broader Muslim world It shows that one pathway to democratization lays not in resolving important but often irreconcilable debates about the role of religion in politics Rather it requires that Islamists and their secular opponents focus on the concerns of pragmatic survival that is compromise through pacting rather than battling through difficult philosophical issues about faith This is the only book length treatment of this topic and one that aims to redefine the boundaries of an urgent problem that continues to haunt struggles for democracy in the aftermath of the Arab Spring      **Revolution and Democracy in Tunisia** Larbi Sadiki,Layla Saleh,2024-04-08 This book offers a novel and interdisciplinary exploration of revolution as situated protest in Tunisia Larbi Sadiki and Layla Saleh present extensive local evidence to demonstrate that popular resistance has been a mainstay of modern Tunisia before during and after colonialism Protest makes peoplehood and peoplehood makes protest neither is self contained The book explores the rich history and diversity of insurrectionary politics in Tunisia from the onset of protests in the 1960s up to the 2011 Arab Spring revolution

and beyond exploring bottom up activism hirak and revolution thawrah The six protestscapes presented in the volume unions student activists the phosphate uprising the 2010 11 revolution Kamour and football ultras offer a novel way of examining partial moving snapshots that are crucial to understanding revolution They counter the prevailing narrative of revolution as leaderless a spontaneous surprise with no historical pedigree or inherited learning and depict instead an active citizenry whose collective memories are stamped by trials of anti colonial and anti dictatorial rebellion

Historical Dictionary of the Arab Uprisings Aomar Boum, Mohamed Daadaoui, 2020-03-10 The Arab uprisings that swept the Middle East and North Africa in the period from 2011 2012 left an indelible mark on the socio political landscape of the region But that mark was not consistent across the region while some countries underwent dramatic popular social and political changes others teetered on the brink or were left with the status quo intact Street revolutions toppled despotic regimes in Tunisia Libya and momentarily in Egypt while mounting serious challenges to authoritarian regimes in Syria and Yemen Algeria's entrenched bureaucratic cum military authoritarian system proved resilient until the recent events of early 2019 which forced the resignation of President Abdelaziz Bouteflika before the end of his term on 28 April 2019 As in Algeria protestors in Sudan succeeded after months of demonstrations in overthrowing the government of Omar al Bashir Several Arab monarchies still appear stable and have managed to weather the tempest of the Arab revolutions albeit not without fissures showing in the edifice of their states accompanied by some minor constitutional changes Where Tunisians Egyptians Yemenis Syrians and Libyans demanded regime changes in their political systems protesters in the Arab monarchies have called on the kings and emirs to reform their political system from the top down indicating the sizeable monarchical advantage

Historical Dictionary of the Arab Uprisings contains a chronology an introduction and an extensive bibliography The dictionary section has over 500 cross referenced entries on the terms persons and events that shaped the Arab Spring uprisings This book is an excellent resource for students researchers and anyone wanting to know more about the Arab Uprisings

**Networked Publics and Digital Contention** Mohamed Zayani, 2015 This book brings into focus the relationship between Internet development youth activism cyber resistance and political participation Taking Tunisia as a case study it examines the digital culture of contention that developed in an authoritarian context providing a unique perspective on how networked Arab publics negotiate agency reconfigure political action and reimagine citizenship

Understanding The Political Economy Of The Arab Uprisings Ishac Diwan, 2014-05-26 For the millions of citizens in the Arab World who came together in 2010 2011 to discover their common yearning for dignity and liberty the real revolutions only began after the wave of protests

Understanding the Political Economy of the Arab Uprisings reassess the interests potential and constraints of various socio political players and their importance in the building of a constructive environment for democratic progress in the Middle East Initiated by the Cairo based Economic Research Forum and edited by Ishac Diwan this invaluable volume features contributions by Middle East academics across the world They examine the reasons behind the uprisings how democratic

transitions transpire the role of Arab capitalism in the crises and how the experiences of other countries such as Indonesia Turkey and Iran can forecast where these uprisings may lead the Middle East in the years to come     **Art and the Arab Spring** Siobhan Shilton,2021-07-08 Examines art by over twenty five artists to enable a greater understanding of the Arab Uprisings and of the term revolution     **Tunisia** Safwan M. Masri,2017-09-05 The Arab Spring began and ended with Tunisia In a region beset by brutal repression humanitarian disasters and civil war Tunisia s Jasmine Revolution alone gave way to a peaceful transition to a functioning democracy Within four short years Tunisians passed a progressive constitution held fair parliamentary elections and ushered in the country s first ever democratically elected president But did Tunisia simply avoid the misfortunes that befell its neighbors or were there particular features that set the country apart and made it a special case In Tunisia An Arab Anomaly Safwan M Masri explores the factors that have shaped the country s exceptional experience He traces Tunisia s history of reform in the realms of education religion and women s rights arguing that the seeds for today s relatively liberal and democratic society were planted as far back as the middle of the nineteenth century Masri argues that Tunisia stands out not as a model that can be replicated in other Arab countries but rather as an anomaly as its history of reformism set it on a separate trajectory from the rest of the region The narrative explores notions of identity the relationship between Islam and society and the hegemonic role of religion in shaping educational social and political agendas across the Arab region Based on interviews with dozens of experts leaders activists and ordinary citizens and a synthesis of a rich body of knowledge Masri provides a sensitive often personal account that is critical for understanding not only Tunisia but also the broader Arab world     Non-Western Encounters with Democratization Christopher K. Lamont,Jan van der Harst,2016-03-09 Non Western Encounters with Democratization offers diverse perspectives on democracy and transition spanning the Middle East and North Africa to East Asia This unique collection of essays drawn from contextually rich case studies presents readers with a variety of non western encounters with democracy and provides important insights into the dramatic political and social transformations in these regions over the past decades The book offers a deeper understanding of democratization and challenges the image of western democracy as a universal model to which non western societies aspire Taking the events of the Arab Spring as the starting point international contributors look at why the uprisings that rapidly spread across North Africa and the Middle East had a strong resonance in East Asia but failed to inspire similar revolts Through direct engagement with non western experiences of political transition the book demonstrates a unique coherence across two regions relatively under explored in democratization literature
