Psychiatry, Mental Institutions, and the Mad in

Apartheid South Africa Tiffany Fawn Jones, 2012-05-23 In the late 1970s South African mental institutions were plagued with scandals about human rights abuse and psychiatric practitioners were accused of being agents of the apartheid state. Between 1939 and 1994 some psychiatric practitioners supported the mandate of the racist and heteropatriarchal government and most mental patients were treated abysmally. However, unlike studies worldwide that show that women, homosexuals, and minorities were institutionalized in far higher numbers than heterosexual men, *Psychiatry, Mental Institutions, and the Mad in Apartheid South Africa* reveals how in South Africa, per capita, white heterosexual males made up the majority of patients in state institutions. The book therefore challenges the monolithic and omnipotent view of the apartheid government and its mental health policy. While not contesting the belief that human rights abuses occurred within South Africa's mental health system, Tiffany Fawn Jones argues that the disparity among practitioners and the fluidity of their beliefs, along with the disjointed mental health infrastructure, diffused state control. More importantly, the book shows how patients were also to a limited extent able to challenge the constraints of their institutionalization. This volume places the discussions of South Africa's mental institutions in an international context, highlighting the role that international organizations such as the Church of Scientology and political events such as the gay rights movement and the Cold War also played in shaping mental health policy in South Africa.

A Mad, Bad, and Dangerous People? Boyd Hilton, 2008-06-19 In a period scarred by apprehensions of revolution, war, invasion, poverty, and disease, elite members of society lived in fear of revolt. Boyd Hilton examines the changes in society between 1783 and 1846 and the transformations from raffish and rakish behaviour to the new norms of Victorian respectability.

Law and Neuroscience Michael Freeman, 2011-02-10 Current Legal Issues, like its sister volume Current Legal Problems, is based upon an annual colloquium held at University College London. Each year, leading scholars from around the world gather to discuss the relationship between law and another discipline of thought. Each colloquium examines how the external discipline is conceived in legal thought and argument, how the law is pictured in that discipline, and analyses points of controversy in the use and abuse of extra-legal arguments within legal theory and practice. *Law and Neuroscience*, the latest volume in the Current Legal Issues series, offers an insight into the state of law and neuroscience scholarship today. Focussing on the interconnections between the two disciplines, it addresses the key issues informing current debates.

Mad, Bad And Sad Lisa Appignanesi, 2011-10-06 Mad, bad and sad. From the depression suffered by Virginia Woolf and Sylvia Plath to the mental anguish and addictions of iconic beauties Zelda Fitzgerald and Marilyn Monroe. From Freud and Jung and the radical breakthroughs of psychoanalysis to Lacan's construction of a modern movement and the new women-centred therapies. This is the story of how we have understood mental disorders and extreme states of mind in women over the last two hundred years and how we conceive of them today when more and more of our inner life and emotions have become a matter for medics and therapists.

Soil Conservation Service, 1957 **C. S. Lewis and the Christian Worldview** Michael L. Peterson, 2020 C S Lewis is one of the most influential and beloved Christian writers of the past century and interest in him continues to grow as books about his fantasy fiction and biography continue to appear Although Lewis s personal journey was a deeply philosophical search for the most adequate worldview the few extant books about his Christian philosophy focus on specific topics rather than his overall worldview In this book Michael Peterson develops a comprehensive framework for understanding Lewis s Christian worldview from his arguments from reason morality and desire to his ideas about Incarnation Trinity and Atonement All worldviews address fundamental questions about reality knowledge human nature meaning and so forth Peterson therefore examines Lewis s Christian approach to these same questions in interaction with other worldviews

Accenting that the intellectual strength and existential relevance of Lewis's works rest on his philosophical acumen as well as his Christian orthodoxy which he famously called mere Christianity Peterson skillfully shows how Lewis's Christian thought engages a variety of important problems raised by believers and nonbelievers alike the problem of evil and suffering the problem of religious diversity the problem of meaning and others Just as Lewis was gifted in communicating philosophical ideas and arguments in an accessible style Peterson has crafted a major contribution to Lewis scholarship presented in a way that will interest scholars and benefit the general reader
