**Biology** John Moore, 2004-08 Teacher Manual for Biology A Search for Order in Complexity     Works like a Charm  
Robert O. McDonald, 2023-08-01 Works like a Charm addresses a simple question Why are incentives everywhere now From inducements to work harder at our jobs to tax rebates for corporations incentive names a general theory of motivation according to economists we are incentive driven creatures Yet far from being a neutral generalization this understanding of human behavior smuggles in a quintessentially economic way of seeing the world Works like a Charm applies Jacques Lacan s psychoanalytic concept of retroactive causality to explain the metastasis of the language and logic of incentives To discover an incentive is to place in the untouchable past an economic cause for a contextual historical force Tracing incentive from its roots in antiquity to its uptake by neoclassical and then Chicago school economists Robert O McDonald diagnoses the spread of incentives across the social cultural and political field and warns readers of the dangers of handing over causality to the economists
