**CLANDESTINE PHOTOGRAPHY** Raymond P. Siljander, Lance W. Juusola, 2012-04-01 This book explains how to take surreptitious photographs and record video of people and property in a safe and effective manner while producing excellent results. It is the most comprehensive text on clandestine photography available. It takes the reader through conventional as well as the most sophisticated clandestine photography methods in practice today and it covers the use of all types of equipment ranging from off the shelf to the most high tech equipment available. The ultra long range night vision photography methods discussed in this book were devised by the authors and only exist here. Readers will discover esoteric techniques for photographically recording recognizable human and vehicle plate images from distances of over a mile in both daylight and night conditions. Myriad methods for secretly photographing people and property under diverse and difficult conditions are presented. Readers will discover innovative applications of combinations of old and new photographic related technologies some combined in unexpected ways that produce surprising results. It is written and extremely well illustrated in an easy to understand style for all photographers regardless of skill level. The book is appropriate for anyone in law enforcement, military operations and private investigation. It will also benefit government surveillance specialists and those responsible for detecting and thwarting manual clandestine photography. *Gender, Culture, and Disaster in Post-3.11 Japan* Mire Koikari, 2022-04-21 The Great East Japan Disaster, a compound catastrophe of earthquake, tsunami and nuclear meltdown that began on March 11, 2011, has ushered in a new era of cultural production dominated by discussions on safety and security, risk and vulnerability and recovery and refortification. *Gender, Culture and Disaster in Post 3.11 Japan* re-frames post-disaster national reconstruction as a social project imbued with dynamics of gender, race and empire and in doing so Mire Koikari offers an innovative approach to resilience building in contemporary Japan. From juvenile literature to civic manuals to policy statements, Koikari examines a vast array of primary sources to demonstrate how femininity and masculinity, readiness and preparedness, militarism and humanitarianism and nationalism and transnationalism inform cultural formation and transformation triggered by the unprecedented crisis. Interdisciplinary in its orientation, the book reveals how militarism, neoliberalism and neoconservatism drive Japan's resilience building while calling attention to historical precedents and transnational connections that animate the ongoing mobilization toward safety and security. An important contribution to studies of gender and Japan, the book is essential reading for all those wishing to understand local and global politics of precarity and its proposed solutions amid the rising tide of pandemics, ecological hazards, industrial disasters and humanitarian crises.
