Question 1

A missile is projected so as to attain its maximum range. Calculate the maximum height attained if the initial velocity of projection is 200m s^{-1} . [$g = 10\text{m s}^{-2}$]

Observation

The expected response:

Maximum height attained by the projectile

At maximum range, $\theta = 45^\circ$

$$\begin{aligned}
 \text{From } H &= \frac{u^2 \sin^2 \theta}{2g} \\
 &= \frac{200^2 (\sin 45^\circ)^2}{2 \times 10} \\

Daily Graphic Ransford Tetteh, 2014-03-12 *Junior Graphic* Mavis Kitcher (Mrs), 2014-02-26 *Handbook of Research on the Role of Human Factors in IT Project Management* Misra, Sanjay, Adewumi, Adewole, 2019-09-27 The role humans play in the field of information technology continues to hold relevance even with the industry's rapid growth. People contribute heavily to the physical, cognitive, and organizational domain of computing, yet there is a lack of exploration into this phenomenon. Humanoid aspects of technology require extensive research in order to avoid marginalization and insufficient data. The *Handbook of Research on the Role of Human Factors in IT Project Management* is a collection of innovative research on the methods and applications of the task of human characteristics in the design and development of new technology. While highlighting topics including digitalization, risk management, and task analysis, this book is ideally designed for IT professionals, managers, support executives, project managers, managing directors, academicians, researchers, and students seeking current research on the dynamics of human influence in technological projects. *Yearbook of International Organizations 2013-2014 (Volumes 1a-1b)* Union Of International Associations, Union of International Associations, 2013-06-21 Volume 1 A and B covers international organizations throughout the world, comprising their aims, activities, and events. **WAEC in Review** Benjamin Freeman Jr., 2014-11-07 *WAEC in Review* is a practical intervention strategy in transforming the weakening educational system of Liberia, where academic excellence is unceasingly diminishing. *LIPACE Pilot Study Guide* is not only a landmark achievement in the educational history of Liberia but a remarkable stride towards the proper preparation of Liberian students for future diets of the WAEC exam. As a member of the National Committee of the West African Examinations Council and a Stakeholder in the Liberian Education System, I wish to recommend the use of this study guide to adequately prepare each and every Liberian student for future examinations, thereby setting the stage for an easy transition to the emerging West African Senior Secondary Examinations (WASSCE). I am explicitly confident that you will definitely find your journey through this guide very rewarding as you prepare to sit the next WAEC Exam. David S. Massaquoi, Sr. director of Education, The Salvation Army Liberia Command Education Secretariat. Our students sit the exam in constant fear of proctors and supervisors. They know nothing about the exam and its structure, and this fear leads to them failing massively. We need to build the confidence level of our students and help them to study hard and understand the roles of proctors and supervisors to stop the intimidation during the exam. Thanks to LIPACE and the Turning the Tide project, we have helped our students achieve an amazing achievement for the first time in the history of Gbarpolu County, where all senior students successfully passed the exam. Lartey Bemah, principal of Bopolu Public School 2012-2013, Gbarpolu County, Liberia. **Validating Technological Innovation** David Coniam, Peter Falvey, 2016-04-02 This book discusses Hong Kong's use of onscreen marking (OSM) in public examinations. Given that Hong Kong leads the way in OSM innovation, this book has arisen from a recognised need to provide a comprehensive, coherent account of the findings of

various separate but linked validation studies of onscreen public examinations in Hong Kong The authors discuss their experience of the validation process demonstrating how high stakes innovation should be fully validated by a series of research studies in order to satisfy key stakeholders
