

## GRADE 11 PHYSICAL SCIENCES

### NOVEMBER EXAMINATION PAPER 1: PHYSICS

#### SECTION A

##### QUESTION 1

Various options are provided as possible answers to the following questions. Choose the correct answer and write **ONLY** the **LETTER (A-D)** next to the **QUESTION NUMBER** in your answer book.

- 1.1 An example of a vector quantity:
- velocity
  - displacement
  - speed
  - mass
- 1.2 A boy sits on a chair. Gravitational force pulls him down, the force that keeps him from moving down would be:
- friction
  - applied force
  - gravity
  - normal force
- 1.3 Two forces  $F_1$  and  $F_2$  have a net force of 100N if they act in the same direction and are balanced if they act in the opposite direction. The individual forces of  $F_1$  and  $F_2$  will be:
- 70N and 30N
  - 100N and 0N
  - 60N and 40N
  - 80N and 20N

Use the circuit diagram below to answer QUESTIONS 1.4 and 1.5

- 1.4 The voltage over the parallel resistors will be:
- 5V
  - 7V
  - 2V
  - 3V
- 1.5 The total resistance of the circuit if all resistors were identical with a resistance of 20Ω:
- 10Ω
  - 4/3Ω
  - 3Ω
  - 6Ω
- 1.6 A box is pushed forward with a force of 200N but does not move. A possible reason for this is that:
- frictional force is also 200N
  - frictional force is more than 200N
  - frictional force is less than 200N
  - none of the above
- 1.7 The diagram below shows a coil and a magnet with a pole **P**. A magnetic field is induced in the coil due to the motion of the magnet.

Which **ONE** of the following combinations will result in an induced magnetic field with **NORTH POLE** at point **B**?

	DIRECTION OF MOTION OF MAGNET	POLARITY OF P
A	into the coil	North
B	up and down inside the coil	North
C	into the coil	South
D	up and down inside the coil	South

## **Physics Paper 2014 November Review:**

The Subjectivities and Objectivities of Peer Review Daniel Ucko, 2024-12-16 What do we want Evidence based science When do we want it After peer review We have come to think of peer review as the stamp of quality that separates real results from mere conjecture but a look under the hood reveals that the participants inside of peer review are far from objective This book reclaims subjectivity and affirms a social mode of objectivity which prevents peer review from overpromising and underdelivering in its vital role in knowledge production **Cognitive Errors and Diagnostic**

**Mistakes** Jonathan Howard, 2018-11-28 This case based book illustrates and explores common cognitive biases and their consequences in the practice of medicine The book begins with an introduction that explains the concept of cognitive errors and their importance in clinical medicine and current controversies within healthcare The core of the book features chapters dedicated to particular cognitive biases cases are presented and followed by a discussion of the clinician's rationale and an overview of the particular cognitive bias Engaging and easy to read this text provides strategies on minimizing cognitive errors in various medical and professional settings *Clickers in the Classroom* David S. Goldstein, Peter D.

Wallis, 2023-07-03 With classroom response systems or CRSs also known as Student Response Systems Individual Response Systems or informally clickers in use in higher education for some 20 years there is now both ample research and a wealth of examples and ideas to draw on for faculty who are contemplating their use or exploring new ways to integrate them in their teaching The research demonstrates that integrated purposefully in courses the use of clickers aligns with what neuroscience tells us about the formation of memory and the development of learning In addition they elicit contributions from otherwise reticent students and enhance collaboration even in large lecture courses foster more honest responses to discussion prompts increase students engagement and satisfaction with the classroom environment and provide an instantaneous method of formative assessment This book presents a brief history of the development of CRSs and a survey of empirical research to provide a context for current best practices and then presents seven chapters providing authentic effective examples of the use of clickers across a wide range of academic disciplines demonstrating how they can be effective in helping students to recognize their misconceptions and grasp fundamental concepts Like all pedagogical interventions classroom response systems are no panacea and the experienced contributors candidly describe avoidable pitfalls while demonstrating how clickers can deepen student learning and how by providing instantaneous feedback they enable teachers to make adjustments on the fly to better address student understandings or misunderstandings The final chapter explores pros and cons of response systems that use mobile devices and smart phones and the book concludes with an annotated list of further resources such as books articles and videos **From The Vault of Schrodinger's Cat** Natasha

Parkinson, 2023-08-02 Schrodinger's Cat was a science blog set out to debunk the science misinformation that was and is rampant on social media as well as be a credible and trusted source to answer all of readers science questions such as What

makes fireworks different colours How do birds find their way when migrating What is a GMO Is it possible to recreate Frankenstein s Monster What causes that Thanksgiving day turkey coma What is healthier Eating meat or being vegan Is green energy more efficient and how much would a city need to power itself Can sunscreen really give you cancer How far away are we from having a zoo full of extinct animals Is the science and technology in my favourite movie video game even possible Did they actually find water on Mars Why are the InSight and Parker Solar Probe missions so important All of this and more are answered in From The Vault of Schrodinger s Cat a collection of readers favourite posts from the beloved blog Schrodinger s Cat including footnotes of updates of how the science has progressed since the post was released and extensive works cited and resources to provide the same level of transparency dedication to fact checking and search for knowledge that the readers of Schrodinger s Cat have come to know

### **Cross-Cultural Comparisons of Science**

**Education** Shahat, Mohamed A.,Al-Balushi, Sulaiman M.,2025-04-25 Science education varies across cultures influenced by factors like educational philosophy societal values economic conditions and historical contexts Cross cultural comparisons of science education offer valuable insights into how different countries approach the teaching of scientific concepts and skills as well as the outcomes they achieve These comparisons reveal the diverse ways in which science is integrated into curricula the teaching methods used and the resources available to both educators and students By examining the strengths and challenges of various educational systems we can better understand how cultural contexts shape students engagement with science their ability to critically think and the overall impact on scientific literacy Such comparisons provide opportunities for mutual learning and the potential to improve science education globally by adopting the best practices from different cultural settings Cross Cultural Comparisons of Science Education examines the problems involved in cross cultural comparisons in science education by drawing on past studies investigating cultural differences It explores teaching practices and student learning outcomes considering different concepts of quality teaching and the impact of cultural characteristics on science education This book covers topics such as mathematics sociology and teacher training and is a useful resource for sociologists educators academicians researchers and scientists

*International Law and Time* Klara Polackova Van der Ploeg, Luca Pasquet, León Castellanos-Jankiewicz,2022-12-16 This book explores the close complex and consequential yet to a large extent implicit relationship between international law and time There is a conspicuous discrepancy between international law s technical preoccupation with the mechanics of temporal rules and the absence of more foundational considerations of how time both as an irrepressible physical dimension manifesting in the passage of time and as a social construct shaped by diverse social and cultural factors impacts and interacts with international law Divided into five parts and 21 chapters this book explores key aspects of the relationship between international law and time and puts the spotlight on time s fundamental significance for international law as a legal order and as a discipline Pursuing diverse approaches to international law the authors consider the notion significance manifestations uses and implications of time in international

law in a wide range of contexts and offer insights into the various ways in which international law and international lawyers cope with time both in terms of constructing narratives and in devising and employing particular legal techniques

**Scientific Publishing Ecosystem** Payal B. Joshi, Prathamesh P. Churi, Manoj Pandey, 2024-08-01 The book aims to converge the perspectives of authors editors and reviewers to discuss modern scientific publishing practice and emerging concerns in the contemporary world Authors editors and reviewers form a triage in a publishing ecosystem which is witnessing a huge pressure due to changing evaluation criteria for career progression and grant funding The major perspective of this book is to put forth the present day emerging ills of modern publishing system and sensitize the research fraternity be it young researchers or established scientists towards practicing good science and preserving spirit of scientific discoveries The edited book consists of three parts viz Part I Authors Authorship and Scholarly Dissemination features ten chapters devoted to describe authorship issues and good publication practice plagiarism concerns preprints open access models conflicting interests rise of review papers writing book reviews and assessing faculty beyond metrics Part II Editors Editorial Desks and Issues of Scientific Misconduct features eight chapters devoted to discuss on issues of editorial misconduct desk rejections paper mills letters to editors image duplication emerging ChatGPT in writing reviewing spaces citation cartels and retractions Finally Part III Reviewers and Developing Evaluators Eye features five chapters devoted to discuss peer review as an idea creating model paying peer reviewers training reviewers peer review manipulations and peer review in age of AI All chapters in the book are written by expert contributors of the field that provides a systematic approach of understanding various challenges opportunities and ethical considerations of scientific publishing ecosystem Most of the chapters have featured recent cases of scientific misconduct as examples to reflect scale of the problem This book will serve as a reference to research practitioners in understanding assigning authorship on papers modern day publishing collaboration role of editors to serve journals in a holistic manner and ensuring fair peer review mechanisms

*Applied Mechanics Reviews* ,1968      **Sustainable Building and Built Environments to Mitigate Climate Change in the Tropics** Tri Harso Karyono, Robert Vale, Brenda Vale, 2017-02-21 This book offers a selection of the best papers presented during the International conference on Mitigating and Adapting Built Environments for Climate Change in the Tropics held at Tanri Abeng University TAU Jakarta Indonesia March 2015 The book is divided into four main parts The first part deals with the general issue of climate change the cause and the ways to mitigate and to adapt the built environment for climate change in a number of countries Part 2 deals with the conceptual ways to mitigate building for climate change The ways to reduce cooling energy in tropical buildings by means of passive design Part 3 offers papers that examine the way to overcome disasters in the city caused by climate change The final part deals with the role of plants in mitigating and adapting built environments to climate change the use of plants trees and bushes to directly and indirectly reduce carbon emissions are discussed      The International Radio Regulations Mohamed Ali El-Moghazi, Jason Whalley, 2022-01-01 This

book provides an in depth introduction to the International Telecommunication Union ITU Radio Regulations RR and the policies that govern them Established in 1906 these regulations define the allocation of different frequency bands to different radio services the mandatory technical parameters to be observed by radio stations especially transmitters and the procedures for spectrum use coordination at the international level The book analyzes the interactions between different national policies and the ITU RR noting how these interactions influence spectrum policy on the national level setting up a comparative framework within which to view these regulations and their effects Beginning with an overview of the history of the origins ITU RR the book takes a deep dive into the components of spectrum management including radio communication service allocation wireless technology selection radio usage rights and spectrum rights assignment placing each analysis within the context of the push and pull between national and international regulations The book concludes with chapters discussing issues affecting the future of spectrum policy including spectrum policy reform in developing countries the WRC 19 and IMT 2020 Shedding light on the longest running treaty documents in the history of modern telecommunications and arguing for reforms that allow it to address the needs of all nations this book is useful to scholars and students of telecom policy digital policy ICT governance and development as well as telecom industry practitioners and regulators *Fueling Freedom* Stephen Moore, Kathleen Hartnett White, 2016-05-23 Fossil fuel energy is the lifeblood of the modern world Before the Industrial Revolution humanity depended on burning wood and candle wax But with the ability to harness the energy in oil and other fossil fuels quality of life and capacity for progress increased exponentially Thanks to incredible innovations in the energy industry fossil fuels are as promising safe and clean an energy resource as has ever existed in history Yet highly politicized climate policies are pushing a grand scale shift to unreliable impractical incredibly expensive and far less efficient energy sources Today fossil fuel has become such a dirty word that even fossil fuel companies feel compelled to apologize for their products In *Fueling Freedom* energy experts Stephen Moore and Kathleen Hartnett White make an unapologetic case for fossil fuels turning around progressives protestations to prove that if fossil fuel energy is supplanted by green alternatives for political reasons humanity will take a giant step backwards and the planet will be less safe less clean and less free

**The Economics of Open Access** Thomas Eger, Marc Scheufen, 2018-06-29 Addressing the recent debate on how the future of academic publishing might look in a purely digital environment this book analyzes the experiences of researchers with as well as attitudes towards Open Access OA publishing Drawing on a unique in depth survey with more than 10 000 respondents from 25 countries Thomas Eger and Marc Scheufen discuss their findings in the light of recent policy attempts which have been trying to foster OA revealing considerable shortcomings and lack of knowledge on fundamental features of the academic publishing market **The SAGE Handbook of Research in International Education** Mary Hayden, Jack Levy, Jeff Thompson, 2015-10-13 The landscape of international education has changed significantly in the last ten years and our understanding of concepts such as international global and multicultural are being re evaluated Fully updated and
