**Thirty-Eight Church Revitalization Models for the Twenty-First Century** Tom Cheyney, 2014-09-02 While some church revitalizers see church revitalization models as mere fable others see the validity of having examples and samples to study in the effort to get a glimpse of what God might be saying about how to bring church renewal to their present work Regardless of the debate regarding myths for models or strategies for the revitalization churches there appears to be at least six areas and thirty eight strategies that a church seeking renewal could consider **African Initiative and Inspiration in the East African Revival** Daewon Moon, 2022-09-12 The East African Revival is a fascinating historical example of the significant role indigenous agency can play in creating a new Christian spirituality African revivalists initiated the spread of the movement employing creative practices such as public testimony and fellowship meetings to sustain the effects of conversion experiences Daewon Moon integrates theological and sociological analyses of conversion with interviews and personal narratives that express insiders perspectives As active agents in the multiethnic and multicultural movement African revivalists articulate through their words and changed lives what it means to be saved **Reaching People Under 40 while Keeping People over 60** Edward H Hammett, 2007-02-01 Many established churches are facing a number of challenges in today s increasingly secular culture Such a shift in many communities creates a challenge of church growth and church health when it seems that satisfying the needs of one group creates barriers to reaching another group So many are asking How do you keep people over sixty years of age who often hold church culture values while at the same time reach people under forty who often hold postmodern values If a church is interested in growing this situation becomes a major challenge Reaching People under 40 while Keeping People over 60 looks at the church as it seeks to function in a new world It looks at the differences in the generations and at postmodernism not just a generational difference but a global change Most importantly Reaching People under 40 while Keeping People over 60 looks at what a church can do in this new age to help the church survive and thrive Foreword by Bill Easum A TCP Leadership Series title *Prophetic and Public* Kristin E. Heyer, 2006-06-02 The United States was founded on a commitment to religious tolerance Based on this commitment it has become one of the most religiously diverse and religiously observant liberal democracies in the world Inherent in this political reality is the question What is the appropriate relationship between religious beliefs and public life This is not a new question but in contemporary US politics it has become a particularly insistent one In this intelligent wide ranging book Kristin Heyer provides new and nuanced answers Prophetic and Public employs the discourse of public theology to consider what constitutes appropriate religio political engagement According to Heyer public theology connects religious faith concepts and practices to their public relevance for the wider society Her use of public theology concepts to address the appropriate possibilities and limits for religio political engagement in the United States is both useful and enlightening Heyer approaches the relationship between public morality and religious commitment through the example of the Catholic Church

She looks at two prominent Catholics Michael Baxter and Bryan Hehir as a way of discussing norms for practice of public theology Heyer also analyzes case studies of three US Catholic advocacy groups The US Conference of Catholic Bishops NETWORK and Pax Christi USA Through her analysis she shows the various ways that the organizations Catholic identity impacts their social and political efforts From her investigations come norms that define possibilities and limits for political actions based on religious conviction This deeply thoughtful book examines what is truly fundamental and inescapable about public life and private religious belief in the United States In doing so it makes skillful use of the tools of theology philosophy law and advocacy to demonstrate that the Catholic Church reveals great diversity in its public theology providing legitimate options for a faithful response to urgent political issues

**Community Building in the Twenty-first Century** Stanley Hyland (Ph. D.), 2005 Community has long been a critical concept for social scientists and never more so amid the growing economic inequity natural and human disasters and warfare of the opening years of the twenty first century In this volume leading scholar activists develop a conceptual framework for both the theory and practice of building communities Rethinking the very concept in light of technological change and globalization they examine local responses to worldwide trends study the ways that communities generate and use resources and evaluate existing theories and approaches to community building to determine the best strategies for fostering community strength and vitality Their work with groups ranging from refugees religious charities and poor urban neighborhoods to tribal peoples international corporations and public health agencies demonstrates that local communities contain the seeds for a more desirable future and suggests how we may encourage those seeds to grow

McGovern, 2025-01-07 How grassroots activism transforms contemporary urban politics in Philadelphia and beyond Immigration gentrification and the rise of an innovation based economy are altering American cities In *Mobilization Politics* Stephen J McGovern offers a new approach to analyzing contemporary urban politics in light of these broad societal changes Redirecting the focus from the top down orientation of regime theory toward a more bottom up perspective he contends that a striking upsurge in grassroots activism around issues such as policing and criminal justice reform precarious labor affordable housing community development and workforce diversity is transforming urban politics and policymaking Through a detailed analysis of political activity in Philadelphia over the past decade McGovern elucidates the mechanisms and impacts of grassroots mobilization Philadelphia is typical of many large American cities with a relatively prosperous downtown core surrounded by neighborhoods that continue to struggle sometimes amidst grinding poverty and long standing racial oppression And yet Philadelphia as a site of substantial grassroots activism since the early 2010s has made significant strides in combatting economic and racial inequality in several important policy realms *Mobilization Politics* expands the scope of the field of urban politics beyond the quiet behind the scenes bargaining of regime partners and considers other key arenas of political contestation such as electoral politics policymaking by the mayor administrative agencies and the city council and a wide range of activist groups operating at the

grassroots The book shows how bottom up mobilization has been especially effective when activists engaging in street protests and demonstrations have joined with more established community based organizations and issue advocacy groups skilled in lobbying litigation and electioneering By highlighting how this combination of insider outsider activism has been a potent force for political change in contemporary Philadelphia Mobilization Politics presents a more comprehensive dynamic and revealing way to look at power and politics in American cities today *Handbook for the Christian Faith* James M.
