Literature for Today's Young Adults Kenneth L. Donelson, Alleen Pace Nilsen, 1997 With 140 fewer pages than the fourth edition the fifth obviously has been tightened it's partly in the format with narrower margins and less white space Otherwise some text has been rephrased or rearranged and topics for example adolescent psychology given shorter shrift Coverage of Holocaust literature has been expanded and discussion of problem novels improved Sports books have been dumped in with humor movies and other stuff including humorous poetry which it seems the authors feel is the only kind teens read for pleasure other types of poetry as well as short stories and drama are relegated to the English classroom coverage of which has been enlarged The chapter on sf and fantasy is good on historical aspects but weak on today's writers A short list of Internet listserves and Web sites has been incorporated as part of using YA literature in the library Once again updating of appendixes seems spotty Nevertheless this is useful as a resource for youth librarians and a tool for teaching YA literature Sally Estes **For Younger Readers** ,1995 The Teacher's Calendar School Year 2005-2006 Editors of Chase's, 2005-04-15 A year's worth of ideas and activities to revitalize every teacher's class I see this as an absolutely necessary tool no matter what your subject area or grade level The information contained in the index alone is worth the price of this book Alexis Ludewig Wisconsin Teacher of the Year 2002 The kids especially like the Internet links to find special facts about a given day of the year Tracy Callard Kansas Teacher of the Year 2002 A wonderful resource to supplement our required curriculum Melinda Day Webster Tennessee Teacher of the Year 2002 For more than five years The Teacher's Calendar has been a fixture in classrooms and school libraries across the country You will find innovative ideas for lessons bulletin boards and school calendars on every page Sidebars highlight specific dates and provide curriculum ideas lists of appropriate books and related websites 5 000 month by month day by day listings all fully updated and revised 50 new essays on how to use this material in your classroom Appendixes with U S Canada and Mexico at a glance facts And more With its extensive listings and seemingly inexhaustible treasure of classroom ideas The Teacher's Calendar will take the guesswork out of lesson planning and put fun and creativity back into your classroom
