SERVICE SUPPORT

MSC's 15 Service Support Program ships provide the Navy with towing, rescue and salvage, submarine support and cable laying and repair services, as well as a command and control platform and floating medical facilities.

All Service Support ships are government-owned and are crewed by civil service mariners.

Submarine tenders, the command ship and the Afloat Forward Staging Base (Interim) have combined crews of civil service mariners and uniformed Navy personnel working under the leadership of a U.S. Navy captain. Civil service mariners perform navigation, deck, engineering, laundry and galley service operations while military personnel aboard support communications, weapons systems and security.

The sealift fleet can be expanded in times of national crisis by chartering private industry ships or activating government-owned ships that are maintained in reduced operating status. In addition, the high-speed vessels support geographic combatant command and service requirements for intra-theater lift and theater security cooperation and other fleet missions as assigned.
