Tempting Fate Paul C. Avey, 2019-11-15 Unpacking of the dynamics of conflict under conditions of nuclear monopoly Paul C Avey argues in *Tempting Fate* that the costs and benefits of using nuclear weapons create openings that weak nonnuclear actors can exploit Avey uses four case studies to show the key strategies available to nonnuclear states Iraqi decision making under Saddam Hussein in confrontations with the United States Egyptian leaders thinking about the Israeli nuclear arsenal during wars in 1969 70 and 1973 Chinese confrontations with the United States in 1950 1954 and 1958 and a dispute that never escalated to war the Soviet United States tensions between 1946 and 1948 that culminated in the Berlin Blockade Strategies employed include limiting the scope of the conflict holding chemical and biological weapons in reserve seeking outside support and leveraging international non use norms Avey demonstrates clearly that nuclear weapons cast a definite but limited shadow and while the world continues to face various nuclear challenges understanding conflict in nuclear monopoly will remain a pressing concern for analysts and policymakers Thanks to generous funding from Virginia Tech and its participation in TOME the ebook editions of this book are available as Open Access volumes available from Cornell Open cornellpress.cornell.edu/cornell/open and other repositories

Late-Life Homelessness Amanda Grenier, 2022-01-15 Around the world and across a range of contexts homelessness among older people is on the rise In spite of growing media attention and new academic research on the issue older people often remain unrecognized as a subpopulation in public policy programs and homeless strategies As such they occupy a paradoxical position of being hypervisible while remaining overlooked Late Life Homelessness is the first Canadian

book to address this often neglected issue Basing her analysis on a four year ethnographic study of late life homelessness in Montreal Canada Amanda Grenier uses a critical gerontological perspective to explore life at the intersection of aging and homelessness She draws attention to disadvantage over time and how the condition of being unhoused disrupts a person's ability to age in place resulting in experiences of unequal aging Weaving together findings from policy documents stakeholder insights and observations and interviews with older people this book demonstrates how structures organizational practices and relationships related to homelessness and aging come to shape late life Situated in the context of an aging population rising inequality and declining social commitments Late Life Homelessness stresses the moral imperative of responding justly to the needs of older people as a means of mitigating the unequal aging of unhoused elders *Realities of Canadian Nursing* Carol McDonald, Marjorie McIntyre, 2017-12-12 In *Realities of Canadian Nursing* influential scholars throughout Canada give voice to the unheard concerns of nurses and go to great lengths to ensure the text offers readers more than an update on current and pressing professional legal ethical political social economic and environmental issues in nursing and healthcare In chapter 1 of the text authors Carol McDonald PhD RN and Marjorie McIntyre RN PhD offer a Framework for Analysis which gives students and educators a shared and organized format through which to identify analyze and strategize about solving the issues Students will be inspired to influence professional associations collective bargaining units government and workplace and participate in political action In this edition the authors will retain the content and features that have made this text the mostly widely used issues and trends book in the Canada while adding new coverage of Canada's Truth and Reconciliation Commission TRC and the subsequent Calls to Action Student and Instructor resources on thePoint will help prepare students for the NCLEX and help faculty save time as well as integrate their course resources with their required text *The Labor of Lunch* Jennifer E. Gaddis, 2019-11-12 There's a problem with school lunch in America Big Food companies have largely replaced the nation's school cooks by supplying cafeterias with cheap precooked hamburger patties and chicken nuggets chock full of industrial fillers Yet it's no secret that meals cooked from scratch with nutritious locally sourced ingredients are better for children workers and the environment So why not empower lunch ladies to do more than just unbox and reheat factory made food And why not organize together to make healthy ethically sourced free school lunches a reality for all children The Labor of Lunch aims to spark a progressive movement that will transform food in American schools and with it the lives of thousands of low paid cafeteria workers and the millions of children they feed By providing a feminist history of the US National School Lunch Program Jennifer E Gaddis recasts the humble school lunch as an important and often overlooked form of public care Through vivid narration and moral heft The Labor of Lunch offers a stirring call to action and a blueprint for school lunch reforms capable of delivering a healthier more equitable caring and sustainable future **Disability and Vocational Rehabilitation in Rural Settings** Debra A. Harley, Noel A. Ysasi, Malachy L. Bishop, Allison R. Fleming, 2017-11-03 This first of its kind textbook surveys rehabilitation and vocational programs aiding

persons with disabilities in remote and developing areas in the U S and abroad Contributors discuss longstanding challenges to these communities most notably economic and environmental obstacles and ongoing barriers to service delivery as well as their resilience and strengths Intersections of health social structural and access disparities are shown affecting rural disabled populations such as women racial and sexual minorities youth and elders In terms of responses a comprehensive array of healthcare and health policy solutions and recommendations is critiqued with regard to health employment and service effectiveness outcomes Included among the topics Healthcare initiatives strategies and challenges for people with disabilities in rural frontier and territory settings Challenges faced by veterans residing in rural communities The Asia and Pacific region rural urban impact on disability Challenges after natural disaster for rural residents with disabilities Meeting the needs of rural adults with mental illness and dual diagnoses Capacity building in rural communities through community based collaborative partnerships Disability and Vocational Rehabilitation in Rural Settings makes a worthy textbook for graduate students and upper level undergraduates in the fields of social work community and environmental psychology public health sociology education and geography Its professional audience also includes vocational rehabilitation counselors serving these dynamic populations

International Guide to Student Achievement John Hattie, Eric M. Anderman, 2013-01-17 The International Guide to Student Achievement brings together and critically examines the major influences shaping student achievement today There are many often competing claims about how to enhance student achievement raising the questions of What works and What works best World renowned bestselling authors John Hattie and Eric M Anderman have invited an international group of scholars to write brief empirically supported articles that examine predictors of academic achievement across a variety of topics and domains Rather than telling people what to do in their schools and classrooms this guide simply provides the first ever compendium of research that summarizes what is known about the major influences shaping students academic achievement around the world Readers can apply this knowledge base to their own school and classroom settings The 150 entries serve as intellectual building blocks to creatively mix into new or existing educational arrangements and aim for quick easy reference Chapter authors follow a common format that allows readers to more seamlessly compare and contrast information across entries guiding readers to apply this knowledge to their

own classrooms their curriculums and teaching strategies and their teacher training programs

Life in the Age of Drone Warfare Lisa Parks, Caren Kaplan, 2017-10-19 This volume's contributors offer a new critical language through which to explore and assess the historical juridical geopolitical and cultural dimensions of drone technology and warfare. They show how drones generate particular ways of visualizing the spaces and targets of war while acting as tools to exercise state power. Essays include discussions of the legal justifications of extrajudicial killings and how US drone strikes in the Horn of Africa impact life on the ground as well as a personal narrative of a former drone operator. The contributors also explore drone warfare in relation to sovereignty governance and social difference provide accounts of the relationships between drone technologies and modes of perception and mediation and theorize drones relation to biopolitics robotics automation and art. Interdisciplinary and timely *Life in the Age of Drone Warfare* extends the critical study of drones while expanding the public discussion of one of our era's most ubiquitous instruments of war. Metabolites Based Green Synthesis of Nanomaterials and Their Applications Azamal Husen,2023-05-02 Nanotechnology is gaining importance in every field of science and technology Green synthesis of nanomaterials involves the use of

microorganisms such as bacteria fungi viruses and different lower and higher plants Green synthesis of nanomaterials from plant extracts becoming popular in comparison to synthesis using microorganisms Plant based nanomaterials synthesis is easy have no need to bring back from the culture medium and is safe Additionally plant based nanomaterials are eco friendly in comparison to physical and chemical modes of synthesis Several lower and higher plants are rich in terms of secondary metabolites These metabolites have been used as medicine in crude extract form or with some other formulations They have been also used to isolate the bioactive compounds in modern medicine as well as in herbal medicine systems Thus phytochemicals present in the plant and their parts play an important role in nanomaterials synthesis mainly due to the presence of a significant number of secondary metabolites for instance alkaloids flavonoids saponins steroids tannins etc Further essential and aromatic oils have been also explored for nanomaterials synthesis and they are also equally useful in terms of their various biological applications These organic ingredients come from a wide range of plant components such as leaves stems roots shoots flowers bark and seeds Globally the presence of different plants has shown a capability to produce huge and diverse groups of secondary metabolites The functional groups present in the plant extract acts as capping and stabilizing agent Most of the time pure isolated bioactive compounds are more biologically active hence scholars are focusing their research on the synthesis of nanomaterials using some particular class of secondary metabolites Investigations have shown that the green synthesized nanomaterials were found to be more biologically active in comparison to chemically synthesized nanomaterials These nanomaterials and or nanocomposites found different applications especially in drug delivery detection and cure of cancer cells diagnosis of a genetic disorder photoimaging and angiogenesis detection They have also shown several applications in agricultural horticultural as well as forestry sectors The book in hand covers a wide range of topics as mentioned above It incorporates chapters that the authors have skilfully crafted with clarity and precision reviewing up to date literature with lucid illustrations The book would cater to the need of graduate students as a textbook and simultaneously be useful for both novices and experienced scientists and or researchers working in the discipline of nanotechnology nanomedicine medicinal plants plant science economic botany chemistry biotechnology pharmacognosy pharmaceuticals industrial chemistry and many other interdisciplinary subjects It should also inspire industrialists and policy makers associated with plant based nano products

Forthcoming Books Rose Arny,2004 **Rethinking Value-Added Models in Education** Audrey Amrein-Beardsley,2014-04-24 Since passage of the of No Child Left Behind Act in 2001 academic researchers econometricians and statisticians have been exploring various analytical methods of documenting students academic progress over time Known as value added models VAMs these methods are meant to measure the value a teacher or school adds to student learning from one year to the next To date however there is very little evidence to support the trustworthiness of these models What is becoming increasingly evident yet often ignored mainly by policymakers is that VAMs are 1 unreliable 2 invalid 3 nontransparent 4 unfair 5 fraught with measurement errors and 6 being inappropriately

used to make consequential decisions regarding such things as teacher pay retention and termination Unfortunately their unintended consequences are not fully recognized at this point either Given such the timeliness of this well researched and thoughtful book cannot be overstated This book sheds important light on the debate surrounding VAMs and thereby offers states and practitioners a highly important resource from which they can move forward in more research based ways
