performative tropes and structures      *Quantifying Mentalities* Catherine Rubincam, 2021-11-18 As 21st century citizens of developed countries we are constantly bombarded by numbers in every aspect of our lives Almost automatically we learn to interpret how numbers are used in our language what magnitude of numbers we expect to hear in particular contexts how people in our community express degrees of confidence in the reliability of any particular number etc Context of this kind is lacking when we read a historical narrative composed in an ancient language from a world vastly different from ours In *Quantifying Mentalities* Catherine Rubincam helps overcome this barrier to our accurate understanding of the numbers in the works of five major ancient Greek historians by providing a standard against which their credibility can be more accurately judged This systematic quantified study is based on the compilation of statistics concerning a standard constellation of aspects of all the numbers in the historical works of the five earliest wholly or at least substantially surviving ancient Greek historians Herodotus Thucydides Xenophon *Anabasis* and *Hellenica* Polybius and Diodorus Siculus Such a comprehensive study has not been attempted before For scholars reading and writing about the history of ancient Greece the volume offers a tool for interpreting the numbers in these ancient texts with more sensitivity to the world in which they were written Standard aspects of number use captured by the coding system are the different types of number cardinals ordinals compounds and non explicit but definite numbers the subject category to which each number belongs Time Distance Size Military Population Money and Miscellaneous and the types of any qualifications attached to it Approximating Comparative Alternative and Emphatic The statistics also facilitate comparisons of every aspect of number use between authors and texts enabling the delineation of a numeric profile for each one This allows us to read these texts with a greater sensitivity to how they might have sounded to the author and his original readers thus providing a firmer foundation for reconstructing or interpreting ancient Greek history      **History III** Thucydides, 1994 Professor Rhodes continues his edition of Thucydides books on the Archidamian War with his edition of Book III providing an Introduction on Thucydides history and on the Peloponnesian War Greek text with selective critical apparatus and facing translation and a commentary which should be useful not only to specialists but also to readers      *Syracuse, City of Legends* Jeremy Dummett, 2010-03-30 Dubbed the greatest Greek city and the most beautiful of them all by Cicero Syracuse also boasts the richest history of anywhere in Sicily *Syracuse City of Legends* the first modern historical guide to the city explores Syracuse's place within the island and the wider Mediterranean and reveals why it continues to captivate visitors today more than two and a half millennia after its foundation Over its long and colourful life Syracuse has been home to many creative figures including Archimedes the greatest mathematician of the ancient world as well as host to Plato Scipio Africanus conqueror of Hannibal and Caravaggio who have all contributed to the rich history and atmosphere of this beguiling and distinctive Sicilian city Generously illustrated *Syracuse City of Legends* also offers detailed descriptions of the principal monuments from each period in the city's life explaining their physical location as well as their historical context This vivid and engaging history weaves together the

**Misinformation, Disinformation, and Propaganda in Greek Historiography** Thomas Figueira, Rosaria Vignolo Munson, 2025-01-09 Mindful of the present state of discourse on ancient Greek historiography this edited volume explores the major themes of pursuing factuality managing witness source bias falling into historical error and creating or confronting propaganda Even the greatest ancient historians striving for factuality and truthfulness must commence from subjectivity Their works when studied closely reveal biases and conceptual or ideological distortions their own and others For this reason Misinformation Disinformation and Propaganda in Greek Historiography strives to evaluate the issues which stand in the way of factuality in historical texts and records The contributors all experts in the field explore and question the accuracy of the historiography in question the ancient author's fidelity to their sources and the evidence presented in relation to inherited oral traditions In this way an ancient author's methodology is evaluated in terms of its probability the awareness of its cultural variation and the influences which we can deduce within the texts This volume presents an important contribution to the study of what constitutes fact and fiction within ancient Greek historiography

**Thucydides, Hobbes, and the Interpretation of Realism** Laurie M. Johnson, 2020-01-15 This original book has been consistently cited by scholars of international relations who

explore the roots of realism in Thucydides's history and the political philosophy of Thomas Hobbes. While acknowledging that neither thinker fits perfectly within the confines of international relations realism, Laurie M. Johnson proposes Hobbes's philosophy is more closely aligned with it than Thucydides's. **Demokratia** Josiah Ober, Charles Hedrick, 2021-03-09. This book is the result of a long and fruitful conversation among practitioners of two very different fields: ancient history and political theory. The topic of the conversation is classical Greek democracy and its contemporary relevance. The nineteen contributors remain diverse in their political commitments and in their analytic approaches but all have engaged deeply with Greek texts with normative and historical concerns and with each other's arguments. The issues and tensions examined here are basic to both history and political theory: revolution versus stability, freedom and equality, law and popular sovereignty, cultural ideals and social practice. While the authors are sharply critical of many aspects of Athenian society, culture, and government, they are united by a conviction that classical Athenian democracy has once again become a centrally important subject for political debate. The contributors are Benjamin R. Barber, Alan Boegehold, Paul Cartledge, Susan Guettel Cole, W. Robert Connor, Carol Dougherty, J. Peter Euben, Mogens H. Hansen, Victor D. Hanson, Carnes Lord, Philip Brook Manville, Ian Morris, Martin Ostwald, Kurt Raaflaub, Jennifer Tolbert Roberts, Barry S. Strauss, Robert W. Wallace, Sheldon S. Wolin, and Ellen Meiksins Wood. **Re-Wiring the Ancient Novel** Ed. Cueva, et al., 2018-11-30. The Fifth International Conference on the Ancient Novel, which was held in Houston, Texas, in the fall of 2015, brought together scholars and students of the ancient novel from all over the world in order to share new and significant developments about this fascinating field of study and its important place in the field of Classical Studies. The essays contained in these two volumes are clear evidence that the ancient novel has become a valuable part of the Classics canon and its scholarly attempts to understand the ancient Graeco-Roman world. *Greek History and Epigraphy* Lynette Mitchell, Lene Rubinstein, 2009-12-31. This important volume collects essays on topics in Greek history and epigraphy by an international cast of highly respected historians and epigraphers. Contributions include new and authoritative papers on Athenian politics and political institutions, the language and significance of honorific decrees, the role of inscriptions in the Athenian democratic state and elsewhere, as well as analyses of the methods for interpreting them. Together, this collection represents an appropriate celebration of the work of the distinguished historian Professor Peter Rhodes. The Authoritative Historian K. Scarlett Kingsley, Giustina Monti, Tim Rood, 2023-01-26. A series of essays exploring tradition and innovation across the full temporal range of Greco-Roman historiography. British Books in Print, 1985. Presocratic Reflexivity: The Construction of Philosophical Discourse C. 600-450 B.C. Barry Sandywell, 2002-11.
