Sydor,Karen Sleeth,Jon Toigo,Ed Yourdon,Scott E. Donaldson,Stanley G. Siegel,Gary Donaldson,2011-08-22 The objective of APM Best Practices Realizing Application Performance Management is to establish reliable application performance management APM practices to demonstrate value to do it quickly and to adapt to the client circumstances It s important to balance long term goals with short term deliverables but without compromising usefulness or correctness The successful strategy is to establish a few reasonable goals achieve them quickly and then iterate over the same topics two more times with each successive iteration expanding the skills and capabilities of the APM team This strategy is referred to as Good Better Best The application performance monitoring marketplace is very focused on ease of installation rapid time to usefulness and overall ease of use But these worthy platitudes do not really address the application performance management processes that ensure that you will deploy effectively synergize on quality assurance test plans triage accurately and encourage collaboration across the application life cycle that ultimately lowers overall application cost and ensures a quality user experience These are also fine platitudes but

these are the ones that are of interest to your application sponsors These are the ones for which you need to show value This CA Press book employs this iterative approach adapted pragmatically for the realities of your organizational and operational constraints to realize a future state that your sponsors will find useful predictable and manageable and something that they will want to fund In the meantime you will learn the useful techniques needed to set up and maintain a useful performance management system utilizing best practices regardless of the software provider s *The Apm Guide to Continuing Professional Development* ,2001 **J.
