for managers exactly how brand equity does contribute value The author opens each chapter with a historical analysis of either the success or failure of a particular company's attempt at building brand equity the fascinating Ivory soap story the transformation of Datsun to Nissan the decline of Schlitz beer the making of the Ford Taurus and others Finally citing examples from many other companies Aaker shows how to avoid the temptation to place short term performance before the health of the brand and instead to manage brands strategically by creating developing and exploiting each of the five assets in turn
