Three Theological Mistakes Ric Machuga,2015-01-05 Is the existence of God a matter of faith or knowledge Does God sometimes act miraculously or are there physical causes for everything Is morality absolute or relative Are humans truly free or does God s sovereignty determine everything When bad things happen is God the cause or are they the fault of humans Too frequently Christians answer these questions with a Yes to one side and a No to the other side Thomas Aquinas and Karl Barth answer Yes to both Following their model Machuga defends a third way which transcends the Enlightenment dichotomies of fideism vs rationalism supernaturalism vs naturalism relativism vs absolutism free will vs predestination and God s justice vs his mercy Machuga begins by showing how these false dichotomies grew out of the Enlightenment assumptions of mechanism universal quantification and mono causation He then corrects these demonstrably dubious assumptions by articulating a theory of dual causation The result is a thoroughly biblical understanding of God miracles and free will that can withstand the contemporary criticisms of both science and philosophy *Car Collecting* Steve Linden, *Competitive Position of the U.S. Gear Industry in U.S. and Global Markets* ,1990
