Secret Cures of Slaves Londa Schiebinger, 2023-05-25 Engaging unique sources Londa Schiebinger untangles the complex relationships between European and local physicians healers plants and slavery Fran ois Regourd Universit Paris Nanterre In the natural course of events humans fall sick and die The history of medicine bristles with attempts to find new and miraculous remedies to work with and against nature to restore humans to health and well being In this book Londa Schiebinger examines medicine and human experimentation in the Atlantic World exploring the circulation of people disease plants and knowledge between Europe Africa and the Americas She traces the development of a colonial medical complex from the 1760s when a robust experimental culture emerged in the British and French West Indies to the early 1800s when debates raged about banning the slave trade and eventually slavery itself Massive mortality among enslaved Africans and European planters soldiers and sailors fueled the search for new healing techniques Amerindian African and European knowledges competed to cure diseases emerging from the collision of peoples on newly established often poorly supplied plantations But not all knowledge was equal Highlighting the violence and fear endemic to colonial struggles Schiebinger explores aspects of African medicine that were not put to the test such as Obeah and vodou This book analyzes how and why specific knowledges were blocked discredited or held secret In this urgent probing and visually striking volume Londa Schiebinger one of the pioneers of feminist and colonial science studies shifts our understanding of Enlightenment racial attitudes to the domain of the medical making a vital contribution to the dynamic new wave of research on science and slavery in the Atlantic world James Delbourgo Rutgers University **Beyond Exceptionalism** Rebekka Mallinckrodt, Josef Köstlbauer, Sarah Lentz, 2021-08-23 While the economic involvement of early modern Germany in slavery and the slave trade is increasingly receiving attention the direct participation of Germans in human trafficking remains a blind spot in historiography This edited volume focuses on practices of enslavement taking place within German territories in the early modern period as well as on the people of African Asian and Native American descent caught up in them *Buying Freedom* Kwame Anthony Appiah, Martin Bunzl, 2018-06-05 If slavery is defined broadly to include bonded child labor and forced prostitution there are upward of 25 million slaves in the world today Individuals and groups are freeing some slaves by buying them from their enslavers But slave redemption is as controversial today as it was in pre Civil War America In *Buying Freedom* Kwame Anthony Appiah and Martin Bunzl bring together economists anthropologists historians and philosophers for the first comprehensive examination of the practical and ethical implications of slave redemption While recognizing the obvious virtue of the desire to buy the freedom of slaves the contributors ask difficult and troubling questions Does redeeming slaves actually increase the demand for and so the number of slaves And what about cases where it is far from clear that redemption will improve the material condition or increase the real freedom of a slave *Buying Freedom* includes essays by the editors and by Dean Karlan and Alan Krueger Carol Ann Rogers and Kenneth Swinnerton Arnab Basu and

Nancy Chau Stanley Engerman Jonathan Conning and Michael Kevane Jok Madut Jok Ann McDougall Lisa Cook Margaret Kellow John Stauffer and Howard McGary Slavery in Art and Literature Birgit Haehnel, Melanie Ulz, 2010-01-01 Slavery both in its historical and modern forms continues to be a matter of undiminished political and social relevance This is mirrored by an increasing interest in scholarly research as well as by critical statements from within the field of contemporary art The present volume is designed to bring together artists and scholars from various fields of study discussing trauma and visibility or more precisely memory and denial of traumatic history within visual discourses The purpose of this project is to put the phenomenon of contemporary art production dealing with the issue of slavery into a wider interdisciplinary and transcultural context The book covers current case studies focusing on different media and including visual literary and performative approaches of dealing with the history of slavery in West African American and European cultures **Handbook of Research in the Social Foundations of Education** Steven Tozer, Bernardo P. Gallegos, Annette Henry, Mary Bushnell Greiner, Paula Groves Price, 2011-07-05 This groundbreaking volume helps readers understand the history evolution and significance of this wide ranging often misunderstood and increasingly important field of study *From Antebellum Light Skinned Slaves to the Globalization of Skin Whitening Biotechnology* Amina Mire, 2025-03-15 From Antebellum Light Skinned Slaves to the Globalization of Skin Whitening Biotechnology takes historically grounded analysis and delineates how the skin whitening industry has become a contemporary site that facilitates commodification of unregulated whiteness on a global scale Amina Mire investigates the extent to which antebellum South anti miscegenation racial purity laws facilitated unofficial interracial reproduction of light skinned slaves resulting primarily from a systemic rape of enslaved Black women by white slave masters This is because while different in terms of historical context what the unregulated globalization of the skin whitening industry and the antebellum unofficial reproduction and trade in light skinned slaves have in common is the unofficial and unregulated nature of the accumulation of economic symbolic and aesthetic investment in whiteness The central argument of this book is that commodifiable whiteness is a form of racial capital with profound health social and political implications Consequently as long as whiteness remains a salient ideological force that shapes global understanding of standards of beauty and desirability commodification of whiteness will continue to further entrench systems of racism and colorism The author argues this requires taking seriously the resilience and malleability of white supremacy and its ability to rebrand itself endlessly **Terror and Triumph** Anthony B. Pinn, 2022-07-26 Given the unique history of African Americans and their diverse religious flowering in Black Christianity the Nation of Islam voodoo and others what is the heart and soul of African American religious life As a leader in both Black religious studies and theology Anthony Pinn has probed the dynamism and variety of African American religious expressions In this work based on the Edward Cadbury Lectures at the University of Birmingham England he searches out the basic structure of Black religion tracing the Black religious spirit in its many historical manifestations Pinn finds in the terrors of

enslavement of Black bodies and subsequent oppressions the primal experience to which the Black religious impulse provides a perennial and cumulative response Oppressions entailed the denial of personhood and creation of an object the negro Slave auctions punishments and later lynchings created an existential dread but also evoked a quest a search for complex subjectivity or authentic personhood that still fuels Black religion today In this 20th anniversary edition of Pinn's groundbreaking work the author offers a new reflection on the argument in retrospect and invites a panel of five contemporary scholars to examine what it means for current and future scholarship Contributors include Keri Day Sylvester Johnson Anthony G Reddie Calvin Warren and Carol Wayne White

The Overthrow of Colonial Slavery Robin Blackburn,2024-12-10 In 1770 a handful of European nations ruled the Americas drawing from them a stream of products both everyday and exotic Some two and a half million black slaves imprisoned in plantation colonies toiled to produce the sugar coffee cotton ginger and indigo craved by Europeans By 1848 the major systems of colonial slavery had been swept away either by independence movements slave revolts abolitionists or some combination of all three How did this happen Robin Blackburn s history captures the complexity of a revolutionary age in a compelling narrative In some cases colonial rule fell while slavery flourished as happened in the South of the United States and in Brazil elsewhere slavery ended but colonial rule remained as in the British West Indies and French Windwards But in French St Domingue the future Haiti and in Spanish South and Central America both colonialism and slavery were defeated This story of slave liberation and American independence highlights the pivotal role of the first emancipation in the French Antilles in the 1790s the parallel actions of slave resistance and metropolitan abolitionism and the contradictory implications of slaveholder patriotism The dramatic events of this epoch are examined from an unexpected vantage point showing how the torch of anti slavery passed from the medieval communes to dissident Quakers from African maroons to radical pirates from Granville Sharp and Ottobah Cuguano to Toussaint L Ouverture from the black Jacobins to the Liberators of South America and from the African Baptists in Jamaica to the Revolutionaries of 1848 in Europe and the Caribbean

Slaves Into Workers Ahmad Alawad Sikainga,2014-05-29 Unlike African slavery in Europe and the Americas slavery in the Sudan and other parts of Africa persisted well into the twentieth century Sudanese slaves served Sudanese masters until the region was conquered by the Turks who practiced slavery on a larger institutional scale When the British took over the Sudan in 1898 they officially emancipated the slaves yet found it impossible to replace their labor in the country s economy This pathfinding study explores the process of emancipation and the development of wage labor in the Sudan under British colonial rule Ahmad Sikainga focuses on the fate of ex slaves in Khartoum and on the efforts of the colonial government to transform them into wage laborers He probes into what colonial rule and city life meant for slaves and ex slaves and what the city and its people meant for colonial officials This investigation sheds new light on the legacy of slavery and the status of

former slaves and their descendants It also reveals how the legacy of slavery underlies the current ethnic and regional conflicts in the Sudan It will be vital reading for students of race relations and slavery colonialism and postcolonialism urbanization and labor history in Africa and the Middle East

Marx and Haiti Wulf D. Hund, 2025-01-31 Although modern racism was fully developed by their time Marx and Engels did not engage in a theoretical discussion of its essential features This analytical silence is investigated in the chapter Marx and Haiti Notes on a Blank Space At the same time the chapters of this volume demonstrate that and why the principles of a historical materialist analysis of society present links for a critical theory of racism In the chapter Dehumanization and Social Death Fundamentals of Racism this is shown concerning the various historical shapes of racisms caused by different forms of class relations The chapter Racism's Birth of a Concept connects the conceptual history of racism with the socio-historical conflicts of differently affected social groups Finally the chapter A Historical Materialist Theory of Racism Introduction addresses basic elements of a Marxist analysis of racism It elucidates the necessity of a theoretical conjunction of classist and racist discrimination as well as the historical differentiation of racisms
