take note of its ideological trajectory The book analyses this trajectory shared by Nazism and Stalinism the two instances of totalitarianism in its classical form The ideological trajectory was formed in the interaction of three currents of modernist thought utopianism scientism and revolutionary violence Developing first of all in the nineteenth century and in reaction to the Enlightenment mainstream each of these three currents contributed to the idea of the totalitarian New Man The book considers a broad range of theoretical positions including those associated with Cold War liberalism critical theory and recent anti totalitarian thought in France in order to develop these arguments Genes, Giants, Monsters, and Men Joseph P.
