Fitzgerald William Bunge, 2022-09-06 This on the ground study of one square mile in Detroit was written in collaboration with neighborhood residents many of whom were involved with the famous Detroit Geographical Expedition and Institute Fitzgerald at its core is dedicated to understanding global phenomena through the intensive study of a small local place Beginning with an 1816 encounter between the Ojibwa population and the neighborhood's first surveyor William Bunge examines the racialized imposition of local landscapes over the course of European American settlement Historical events are firmly situated in space a task Bunge accomplishes through liberal use of maps and frequent references to recognizable twentieth century landmarks More than a work of historical geography Fitzgerald is a political intervention By 1967 the neighborhood was mostly African American Black Power was ascendant and Detroit would experience a major riot Immersed in the daily life of the area Bunge encouraged residents to tell their stories and to think about local politics in spatial terms His desire to undertake a different sort of geography led him to create a work that was nothing like a typical work of social science The jumble of text maps and images makes it a particularly urgent book a major theoretical contribution to urban geography that is also a startling evocation of street level Detroit during a turbulent era A Sarah Mills Hodge Fund Publication

Edwards, 2021-08-10 WINNER 2022 John Hope Franklin Prize given by the American Studies Association HONORABLE MENTION 2022 Gloria E Anzaldúa Book Prize given by the National Women's Studies Association Reveals the troubling intimacy between Black women and the making of US global power The year 1968 marked both the height of the worldwide Black liberation struggle and a turning point for the global reach of American power which was built on the counterinsurgency honed on Black and other oppressed populations at home The next five decades saw the consolidation of the culture of the American empire through what Erica R Edwards calls the imperial grammars of blackness This is a story of state power at its most devious and most absurd and at the same time a literary history of Black feminist radicalism at its most trenchant Edwards reveals how the long war on terror beginning with the late Cold War campaign against organizations like the Black Panther Party for Self Defense and the Black Liberation Army has relied on the labor and the fantasies of Black women to justify the imperial spread of capitalism Black feminist writers not only understood that this would demand a shift in racial gendered power but crafted ways of surviving it The Other Side of Terror offers an interdisciplinary Black feminist analysis of militarism security policing diversity representation intersectionality and resistance while discussing a wide array of literary and cultural texts from the unpublished work of Black radical feminist June Jordan to the memoirs of Condoleezza Rice to the television series Scandal With clear moving prose Edwards chronicles Black feminist organizing and writing on the other side of terror which tracked changes in racial power transformed African American literature and Black studies and predicted the crises of our current era with unsettling accuracy
