The Problem With Drinking

Don Cahalan

The Problem With Drinking:

The Problem-drinking Drug Addict National Institute on Drug Abuse,1978 **Cognitive Behavioural Therapy for Problem Drinking** Marcantonio Spada,2010-07-23 This book serves as a concise and practical guide for practitioners using Cognitive Behavioural Therapy CBT with clients who use alcohol in a harmful way The author uses functional analysis and case formulation paradigms to examine the cause and maintenance of problem drinking Drinking Practices and Problems in the U.S. Army, 1972 Don Cahalan,1973 *Helping the Problem Drinker* Tim Stockwell,Sue Clement,2023-12-01 Originally published in 1987 *Helping the Problem Drinker* addressed the realisation that only a small proportion of problem drinkers ever contacted existing treatment agencies and that therefore a more comprehensive community oriented approach should be developed This included training of primary care health workers and the development of multidisciplinary Community Alcohol Teams At the time other community based initiatives such as self help groups for early problem drinkers and early intervention programmes in general practice and general hospitals had been implemented This book draws together what had been learned about these new developments a number of which had now been evaluated The book will still be of interest to all planners and professional staff concerned with alcohol problems both specialists and non specialists in general medicine psychiatry psychology and the social services *Problem Drinking* Richard Bryant-Jefferies,2003 Demonstrating the application of person centred alcohol counselling theory using dialogue to illustrate interactions this text describes counselling supervision and looks at how this approach helps support the counsellor Research Advances in Alcohol and Drug Problems H.M. Annis,H.D. Cappell,F.B. Glaser,M.S. Goodstadt,L.T. Kozlowski,2013-11-11 This is the tenth volume in the Research Advances series and the seventh published by Plenum Press Volume 10 is another omnibus volume providing specialized and advanced reviews in a number of areas related to the use of alcohol illicit drugs and tobacco We include also a brief history of the Center for Alcohol Studies that gives Mark Keller s unique perspective on this noted institution Two of the chapters are decidedly longer than the others very long chapters have appeared occasionally in the past and we think that it is one of the strengths of the series that we are able to accommodate such reviews Again the editorial board has changed After several years of service Reginald G Smart has stepped down New to the board are Helen M Annis Michael S Goodstadt Lynn T Kozlowski and Evelyn R Vingilis This is likely to be the sole volume for which Goodstadt is on the board since before completion of this volume he moved from the Addiction Research Foundation to the Center for Alcohol Studies Rutgers University **Alcohol Problems and Aging** Edith Lisansky Gomberg,Andrea M. Hegedus,Robert A. Zucker,1998 **Elderly** United States. Congress. House. Select Committee on Aging,1984 Economics and the Prevention of Alcohol-related Problems Michael E. Hilton,Gregory Bloss,1993 Alcohol and Drug Problems in Women Oriana Josseu Kalant,2013-11-11 Over the last decade the world has experienced a growing interest in problems associated with the nonmedical use of drugs This interest has corresponded to a real growth in the extent diversity and social impact of

the use of alcohol and drugs in many societies As a result the amount of research and writing on the subject of drug problems has greatly increased and it has become very difficult for one individual to keep up with all the relevant literature There is thus an acute need in the field for critical reviews that assess current developments and the present series is intended to fill this need The series is not to be an annual review in the usual sense The aim is not to cover all the work reported during the preceding year in relation to a fixed selection of topics Rather it is to present each year evaluative papers on topics in which enough recent progress has been made to alter the general scope in a particular area Owing to the multidisciplinary nature of problems of drug use and dependence the papers published in each volume will be drawn from several disciplines

However some volumes may be devoted to one particular problem with individual reviews and papers examining various aspects of it The composition of the editorial board and the international advisory board reflects these objectives The editors are members of the senior scientific staff of the Addiction Research Foundation of Ontario

National Drug/alcohol Collaborative Project National Institute on Drug Abuse. Services Research Branch,1980 **Adolescent Drinking and Family Life** Geoff Lowe,David R. Foxcroft,David Sibley,2022-12-29 Originally published in 1993 Adolescent Drinking and Family Life portrays teenage drinking not as a symptom of pathology but as a perfectly normal developmental phase within the context of the home environment Drinking is predominantly social behaviour and the family is seen as a major agent of socialization The authors have therefore explored family dynamics and the influence which the home environment has upon adolescent drinking to come up with a new theoretical model A major feature of this approach is the interaction of ideas from family life psychology and human geography The authors present a typology of domestic regimes illustrated by case studies of boundary enforcement and transgression The general theme of boundary transgression applied here to both the psychosocial environment and built form represents an interesting new theoretical perspective The integration of these two fields is an innovation which should stimulate further interdisciplinary work in adolescence and addiction research

Adolescent Drinking and Family Life will be interesting to researchers and practitioners in adolescence family dynamics and alcohol as well as any social scientist with an interest in the link between behaviour and the home environment This new approach had important implications for health education and for interventions concerned with adolescent alcohol use at the time Today it can be read in its historical context
