Windle,2016-04-29 Making Sense of School Choice explains why school choice fails to deliver on its promise to meet the needs of culturally diverse populations even in one of the world s most marketized education systems Windle offers fresh insights into the transnational processes involved in producing educational inequalities Catholic to the Core! Kathy Husak-Tarnacki,2022-02-17 Catholic to the Core was born out of a restlessness in the heart of the author Since the early 1990s Kathy Husak Tarnacki felt a very distinct call from God to focus her skills and passions regarding education in a way that honored Christ in every way possible The call was so clear to her that she approached her pastor at the time and asked for permission to open a school within the church She had never been a principal and had never taken formal classes regarding administration but she knew that when God calls he equips And that he did The years that followed were filled with unexpected twists and turns in her professional career and her journey of faith from Catholicism to a non denominational setting then back to the Catholic Church Each step exposed her to new aspects of the possibilities and challenges present when you pursue Christ wholeheartedly as well as highlighting how far schools have fallen from fulfilling their God given purpose These experiences filled her heart and mind with thoughts questions concerns and possible solutions for the lukewarm atmospheres of many of our Catholic schools In 2014 she felt a tugging to begin to write her thoughts down on paper not sure exactly what the purpose would be Now in 2022 she is blessed with the opportunity to publish what she wrote and share it with the hope that it will encourage conversation reflection and determined action **James Farmer Jr.** Ben Voth,2017-04-13 James Farmer Jr The Great Debater provides a rhetorical and biographical guide to how the American Civil Rights Movement came into being It details James Farmer Jr s intellectual emergence as a young debater at an HBCU in

Marshall Texas and ultimately chronicles how this led to the emergence of the first non violent sit in against segregation in 1942 in Chicago Farmer was a key founder of the Congress of Racial Equality CORE that pioneered the non violent strategies that would later be used by Martin Luther King He debated important figures like Malcolm X to provide a powerful advocacy grounded in the praxis of argumentation Ben Voth demonstrates the ongoing relevance of Farmer s successful debate methodology in resolving contemporary race problems in the 21st century such as Black Lives Matter Evangelical Bible Doctrine Dr. Keith Sherlin,2015-12-10 Over twenty one faithful evangelical Bible teachers have joined together in this work to both honor the legacy of Dr Mal Couch as well as to promote a solid sacred and safe theological manual for the body of Christ Colleagues and friends of Dr Couch such as Dr Wayne House Dr Norman Geisler Dr Arnold Fruchtenbaum Dr Timothy Demy and more along with many of Mals students and disciples set forth in this work a biblical and practical theology The first half of the book covers all twelve of the major biblical doctrines of Christianity The last half covers some of the hottest theological topics and practical issues that present day believers ought to be aware of in order to properly defend the faith In chapter 25 you will meet many of the disciples in Christ that Mal taught over the years as they express their gratitude for this godly giant of the faith So if you are curious about what a holistic evangelical faith looks like and even curious as to how dispensationalism fits within orthodox evangelicalism this book will provide for you a solid resource for many years to come

Keeves,Ryo

Watanabe,2013-11-11 The aim of the Handbook is to present readily accessible but scholarly sources of information about educational research in the Asia Pacific region The scale and scope of the Handbook is such that the articles included in it provide substantive contributions to knowledge and understanding of education in the Asia region In so doing the articles present the problems and issues facing education in the region and the findings of research conducted within the region that contribute to the resolution of these problems and issues Moreover since new problems and issues are constantly arising the articles in the Handbook also indicate the likely directions of future developments The different articles within the Handbook

seek to conceptualize the problems in each specific content area under review provide an integration of the research conducted within that area the theoretical basis of the research the practical implications of the research and the contribution of the research towards the resolution of the problems identified Thus the articles do not involve the reporting of newly conducted research but rather require a synthesis of the research undertaken in a particular area with reference to the research methods employed and the theoretical frameworks on which the research is based In general the articles do not advocate a single point of view but rather present alternative points of view and comment on the debate and disagreements associated with the conduct and findings of the research Furthermore it should be noted that the Handbook is not concerned with research methodology and only considers the methods employed in inquiry in so far as the particular methods of research contribute to the effective investigation of problems and issues that have arisen in the conduct and provision of education at different levels within the region
