Enmity and Violence in Early Modern Europe Stuart Carroll, 2023-03-30 Transforms our understanding of Europe between 1500 and 1800 by exploring how ordinary people felt about their enemies and the violence it engendered **The Vacant See in Early Modern Rome** John M. Hunt, 2016-03-11 In *The Vacant See in Early Modern Rome* John M Hunt offers

a social history of the papal interregnum from 1559 to 1655 The study concentrates on the Roman people's relationship with their sacred ruler Using criminal sources from the Archivio di Stato di Roma and Vatican sources Hunt emphasizes the violent and tumultuous nature of the lapse in papal authority that followed the pope's death The vacant see was a time in which Romans of modest social backgrounds claimed unprecedented power From personal acts of revenge to collective protests staged at the Capitol Hill and citywide discussions of the papal election the vacant see provided Romans with a unique opportunity for political involvement in an age of omnipresent hierarchy

The Sacralization of Space and Behavior in the Early Modern World Jennifer Mara DeSilva, 2016-03-09 In the Early Modern period as both reformed and Catholic churches strove to articulate orthodox belief and conduct through texts sermons rituals and images communities grappled frequently with the connection between sacred space and behavior The Sacralization of Space and Behavior in the Early Modern World explores individual and community involvement in the approbation reconfiguration and regulation of sacred spaces and the behavior both animal and human within them The individual's understanding of sacred space and consequently the behavior appropriate within it depended on local need group dynamics and the dissemination of normative expectations While these expectations were defined in a growing body of confessionalizing literature locally and internationally traditional clerical authorities found their decisions contested circumvented or elaborated in order to make room for other stakeholders activities and needs To clearly reveal the efforts of early modern groups to negotiate authority and the transformation of behavior with sacred space this collection presents examples that allow the deconstruction of these tensions and the exploration of the resulting campaigns within sacred space Based on new archival research the eleven chapters in this collection examine diverse aspects of the campaigns to transform Christian behavior within a variety of types of sacred space and through a spectrum of media These essays give voice to the arguments exhortations and accusations that surrounded the activities taking place in early modern sacred space and reveal much about how people made sense of these transformations

The Popes Against the Protestants Kevin Madigan, 2021-01-01 An account of the alliance between the Catholic Church and the Italian Fascist regime in their campaign against Protestants Based on previously undisclosed archival materials this book tells the fascinating untold and troubling story of an anti Protestant campaign in Italy that lasted longer consumed more clerical energy and cultural space and generated far more literature than the war against Italy's Jewish population Because clerical leaders in Rome were seeking to build a new Catholic world in the aftermath of the Great War Protestants embodied a special menace and were seen as carriers of dangers like heresy secularism modernity and Americanism as potent threats to the Catholic precepts that were the true foundations of Italian civilization values and culture The pope and cardinals framed the threat of evangelical Christianity as a peril not only to the Catholic Church but to the fascist government as well recruiting some very powerful fascist officials to their cause This important book is the first full account of this dangerous alliance

Papal Justice Irene Fosi, 2011-03 In early modern Europe justice was always the key to public order and the state's main pillar The pope though the head of the church was also a prince like any other but his justice as machinery and moral model displayed the double nature of his rule targeting not only actions but also beliefs and consciences Irene Fosi the doyenne of scholars of papal justice lays out the ambitious complex and sometimes baffled endeavors of the pope's magistrates and through lively anecdotes gives the flavor of the encounter between the pope's assorted magistrates inquisitors and others and the men and women hauled before the law Originally published in Italian and widely acclaimed *Papal Justice* has been translated into English by Thomas V Cohen professor of history at York University With the English edition this lively overview of the papal justice system reaches a transatlantic readership and makes available the fruit of Fosi's decades long research in unpublished archives in Rome and the Vatican The book examines the very motley shape of the pope's territorial domain the institutions found there and the relationships between Rome and its outlying cities Microhistories of how things worked form a clear picture of relations between the sovereign and his subjects

In the Context of Eternity David J. Arnold, 2017-08-24 In the Context of Eternity is a lively and readable one volume history of the Christian Church which challenges the view that ancient history came to an end in the fifth century and that nothing of significance then happened until the Renaissance It explains how an extraordinary intermingling of the Roman Empire Christianity and Barbarism produced the most dynamic society the world has ever known and how the modern world emerged from the interaction of Christianity and Barbarism on the ruins of Rome There is a prologue explaining the background to the world out of which Christianity developed and an epilogue commenting on the state of the Christian Church at the beginning of the third millennium The period of two thousand years in between is divided into six sections each of which is given the same number of pages and each of which is divided into three chapters Thus the period from the 330s to the 660s on Christendom and the Roman Empire is given the same attention as the period on The Era of Reform from the 1330s to the 1660s Chapter 18 is an account of the development of Christianity in the United States of America
