Hales, 2013-02-26 Few American religious figures have stirred more passion among adherents and antagonists than Joseph Smith Born in 1805 and silenced thirty nine years later by assassins' bullets he dictated more than one hundred revelations published books of new scripture built a temple organized several new cities and became the proclaimed prophet to tens of thousands during his abbreviated life Among his many novel teachings and practices none is more controversial than plural marriage a restoration of the Old Testament practice that he accepted as part of his divinely appointed mission Joseph Smith taught his polygamy doctrines only in secret and dictated a revelation in July 1843 authorizing its practice now LDS D C 132 that was never published during his lifetime Although rumors and exposés multiplied it was not until 1852 that Mormons in Brigham Young's Utah took a public stand By then thousands of Mormons were engaged in the practice that was seen as essential to salvation Victorian America saw plural marriage as immoral and Joseph Smith as acting on libido However the private writings of Nauvoo participants and other polygamy insiders tell another more complex and nuanced story Many of these accounts have never been published Others have been printed sporadically in unrelated publications Drawing on every known historical account whether by supporters or opponents Volumes 1 and 2 take a fresh look at the chronology and development of Mormon polygamy including the difficult conundrums of the Fannie Alger relationship polyandry the angel with a sword accounts Emma Smith's poignant response and the possibility of Joseph Smith's offspring by his plural wives Among the most intriguing are the newly available Andrew Jenson papers containing not only the often quoted statements by surviving plural wives but also Jenson's own private research conducted in the late nineteenth century Telling the story of Joseph Smith's polygamy from the records of those who knew him best augmented by those who observed him from a distance may have produced the most useful view of all

Muslim Studies, Vol. 1 Ignác Goldziher, 1967-01-01 This is the first volume of Goldziher's Muslim Studies which ranks highly among the classics of the scholarly literature on Islam Indeed the two volumes originally published in German in 1889 1890 can justly be counted among those which laid the foundations of the modern study of Islam as a religion and a civilization The first study deals with the reaction of Islam to the ideals of Arab tribal society to the attitudes of early Islam to the various nationalities and more especially the Persians and culminates in the chapter on the Shu'ubiyya movement which represents the reaction of the newly converted peoples and again more especially of the Persians to the idea of Arab superiority The second essay is the famous study on the development of the Hadith the Traditions ascribed to Muhammed in which the Hadith is shown to reflect the various trends of early Islam and in which its collection and the subsequent literature devoted to it is described Goldziher's name is mainly associated with the critical study of the Hadith of which this essay is the chief monument The third essay is about the cult of saints which though contrary to the spirit and the letter of

the earliest Islam played such an important part in its subsequent development These essays with the author s marvelous richness of information profound historical sense and sympathetic insight into the motive forces of religion and civilization are today as fresh as at the time of their original publication and are indispensable for all students of Islam The editor S M Stern has brought the annotation up to date by completing whenever necessary the references by making relevant additions and by indicating the most important later literature dealing with the subjects treated in the studies
