

Preschool Observation Paper

The date of my observation was April 27th, 2010. It was about 9:30 in the morning when I began my study. I went to Grossmont College's Child Development Center. The first thing I began looking for was if the child-teacher ratio was correct. The child ratio was 2 teachers to about every 8 children. The ratio was good. As I entered there was one large room that almost looked as if it could be two rooms they way it was set up. One half consisted of a large bookshelf with numerous books on it with a couch in the front of it. The other half of the room was almost like a little kitchen.

It had a table with chairs around it with a sink and cabinets behind it. There were "age appropriate" toys as well as books all over the room. The areas were both clean and seemed to have no safety hazards. I then walked outside to find almost like a little wonderland for kids. It was so amazing. There was tons of stuff for children to explore and to expand their imaginations. There was a dirt path that went around the children's whole play area, which was occupied by children riding their tricycles. Then to the right side of the play area there was a huge jungle gym and some play kitchen sets.

I observed about 2 teachers that were outside and again 8 children. The teachers outside seemed very respectful towards the children. It was very equal from what I observed. The teachers were very interactive with the children and very helpful when needed. My first impression of "cultural diversity," I would say that based on just children outside; there are a good mix of Caucasian, Mexican, African-American, and Asians. There seemed to be an equal amount of girls versus boys. The center was kind of hectic but was handled very well by all staff.

After observing my surroundings for a minute or two one little girl caught my eye. She reminded me a lot of my two year old just based of her looks and her personality. She seemed to be very outgoing and very into what she was doing. When I saw her she was painting at a table outside with two other children. She was using a plastic spoon instead of paintbrush. She was very into what she was doing and that really caught my eye. DESCRIPTION I chose a 5 year old girl named Addison. Her birthday is February 13th, 2005. She is about 43 inches tall.

She definitely seems taller than the other children around her. She appears to be on the thinner side as well weighing no more than 40 pounds. I would guess that she is African-American mixed with maybe Mexican or Caucasian. She is wearing a purple sparkle tie-dye t-shirt with black legging Capri pants. She has on sparkly sketcher shoes on with white ankle socks. Her feet also appear to be bigger than all the children around her. Her hair is VERY curly and the color is a light brown with even some blonde tones to it. She is wearing her hair down but has a matching purple headband in.

She has straight teeth from what I could see, very little ears, and

Sugai, Randy P. Wood, Alan E. Kazdin, 2013-11-21 The purpose of this book is to provide readers with sufficient knowledge

regarding social skills assessment and training with children so that they can implement and evaluate social skills programs on their own. Increased interest in promoting children's social skills has stemmed in part from advances in research that have shown the importance of childhood social competency for adjustment in both childhood and adulthood. There is a growing need for assessment and training methods that can be utilized by diverse groups of professionals and paraprofessionals. This book is intended for mental health workers, teachers, educators, clinicians, and child care personnel. The book thoroughly reviews the literature to acquaint readers with relevant findings on social skills and to provide discussion regarding contemporary issues and assessment techniques. Subsequently, comprehensive procedures in the training of children's social skills are presented. Readers are also provided with 16 detailed training modules, each of which comprises a rationale, instructions, scripts, and homework assignments. These modules are designed to permit effective implementation of social skills training programs. Moreover, they provide a structured and programmatically designed format that builds in clinical flexibility for their use with individual children or groups of children. These modules are followed by a clinical issues section designed to address potential obstacles to effective training. Following these major sections, two appendixes have been included in the book. The first appendix is a step-by-step description of how to conduct an assessment.

Research in Education, 1970. *Qualitative Research Method* Sari Wahyuni, 2024-09-11. This publication has a very specific and clear goal which is to focus on the needs of a variety of readers including students, researchers, and teachers of qualitative research methods. This book not only has theoretical considerations but also has intensely practical considerations. For students of qualitative research methods, this book provides a framework of qualitative research writing and a variety of accounts of experiences related to interview, focus group, discussion, FGD, and different levels of the important aspects of writing. In addition, for experienced researchers as well as teachers of qualitative research methods, they are encouraged to study, explore, and create those aspects related to the process of qualitative research. Therefore, from this book, students can learn a framework of qualitative research writing; researchers and teachers too can hone their previous qualitative research writing skills and deepen their grasp of this area. Contents that embrace in this book are: Chapter 1: What is Qualitative Research; Chapter 2: Type and Technique of Qualitative Research; Chapter 3: Measurement in Qualitative Research; Chapter 4: Interview; Chapter 5: Focus Group Discussion; Chapter 6: How to Write a Good Proposal; Chapter 7: How to Draw Good Analysis; Chapter 8: Example of Case Study Report.
