Seconds Think A Little Change A Lot English Edition

Charlie Morley

Seconds Think A Little Change A Lot English Edition:

Dreams of Awakening Charlie Morley, 2013 *Dreams of Awakening* is a thorough and exciting exploration of lucid dreaming theory and practice within both Western and Tibetan Buddhist contexts. It not only explores lucid dreaming practices but also the innovative new techniques of Mindfulness of Dream and Sleep, the holistic approach to lucidity training which the author co-created. The book is based on over 12 years of personal practice and the hundreds of lucid dreaming workshops which Charlie has taught around the world in venues as diverse as Buddhist temples and dance music festivals. Using a three-part structure of Ground Path and Germination, the reader is given a solid grounding in the history and benefits of lucid dreaming, cutting-edge research from dream and sleep scientists, entering the path of learning to do the practices, prophetic dreams, lucid living out of body experiences, and quantum dreaming. Although *Dreams of Awakening* presents many different angles on how to make the 30 years we spend asleep more worthwhile, the fundamental aim of the book is to teach people how to lucid dream their way to psychological and spiritual growth. This book is for all those who want to wake up both in their dreams and waking lives.

Generation WTF Christine B. Whelan, 2011-05-01 We all know what WTF usually means: it's an exclamation of frustration, anger, and an understandable reaction to the brutal new economic realities that have hit young adults harder than any other group. WTF happened to promises of a bright future? What happened to the jobs? And what do we do now that the rules have changed? Recent college grads were raised in a time of affluence and entitlement, lulled into thinking that a golden future would happen. Young adults with few role models to teach values like thrift, perseverance, and self-control are ill-equipped to cope with sacrifice and failure. Their dismal employment prospects are merely the most visible symptom of more significant challenges. Fortunately, it's not too late to change course. This optimistic, reflective, and technologically savvy generation already possesses the tools to thrive if only they learn to harness the necessary skills for success. In *Generation WTF*, Christine Whelan does just that. Dr. Whelan, one of the foremost authorities on the history of the self-help genre, worked with more than one hundred young people to test and tweak the best old-school advice and personalize it for the modern twenty-something. After a decade of researching the industry and years advising WTFers as they struggle to make their way in the real world, Dr. Whelan knows firsthand what advice works and what *Generation WTF* has to offer. Rather than focusing on the frustration that WTF usually stands for, Dr. Whelan leads the charge to reclaim the acronym as a battle cry for a positive future. *Generation WTF* will be a wise, tenacious, and fearless generation strengthened by purpose and hope. This practical new guide will show these WTFers the way to success and instill lasting habits that will serve them well in both good times and bad.

Making Change Work Emma Weber, Patricia Pulliam Phillips, Jack Phillips, 2016-05-03 Underpinned by decades of research and application, *Making Change Work* shows that the lynchpin that connects change initiatives and their ultimate success is behavioural change. The book brings together the ROI Institute's established methodology for aligning projects and programmes to business needs and for evaluating impact and

ROI with the Turning Learning Into Action methodology developed by Emma Weber to support learning transfer It offers a step by step process that partners with any business initiative requiring behavioural change providing the critical link bridging the knowledge and application At the heart of the methodology is a framework for reflective conversation ensuring accountability and aligning people to the desired outcomes Cutting through complex change theory Making Change Work is a how to guide providing an end to end approach to solve the problem that businesses have grappled with for so long from change projects that don't deliver business impact It includes real life case studies from organizations such as BMW and the University of NSW Department of Innovation on how organizations are using the framework to create successful outcomes that are not just demonstrated but that are delivered and measurable It is ideal for any professional who is embarking on any organizational initiative requiring change and evaluation of the subsequent ROI whether it is a learning initiative quality initiative or change initiative

Course Design Strategy Ethan Honary, 2021-07-01 This book is packed with strategies and insights that will help you design better training courses It focuses on how people learn as the key factor in making design decisions The book shows you how to design a good course for any field no matter what medium you use to deliver it Learn how the brain works how people forget how to gain and maintain attention and how to make a subject interesting Then use the easy to follow guidelines to design strategically by increasing curiosity making content emotional making learners practise what they have learned and using failure as a teaching tool The art of designing a course and making people learn is mastered through practical experience of running courses the science is gained by evidence based research on how people learn The book combines the two offering many examples and studies in cognitive psychology neuroscience instructional design and training the trainer You will find lots of examples and studies in the book that provide insights that may not be obvious but that lead to important design decisions They will change forever how you think about training design and delivery and help you design courses that your learners will love In Course Design Strategy you will learn How to make content memorable What learners expect from a course How people learn and forget and why this should be the cornerstone of any course design How to use eureka moments and eureka concepts as the building blocks of course design How to make content easy to learn Why the presence of a feedback loop is crucial to learning How to use exercises and tests to enhance learning
