

A photograph of an elderly couple sitting on a grassy bank, looking out over a pond with fallen leaves. The man is in the foreground, seen from the back, wearing a light-colored sweater. The woman is sitting next to him, her head resting on his shoulder. The pond is filled with green water and many fallen yellow and orange leaves. The background is slightly blurred, showing more foliage.

Triumphs Of Experience The Men Of The Harvard Grant Study:

Triumphs of Experience George E. Vaillant, 2012-10-30 At a time when people are living into their tenth decade the longest longitudinal study of human development ever undertaken offers welcome news for old age our lives evolve in our later years and often become more fulfilling Among the surprising findings people who do well in old age did not necessarily do so well in midlife and vice versa

Your Whole Life James Bernard Murphy, 2020-05-22 A holistic view of human development that rejects the conventional stages of childhood adulthood and old age When we talk about human development we tend to characterize it as proceeding through a series of stages in which we are first children then adolescents and finally adults But as James Bernard Murphy observes growth is not limited to the young nor is decline limited to the aged We are never trapped within the horizon of a particular life stage children anticipate adulthood and adults recapture childhood According to Murphy the very idea of stages of life undermines our ability to see our lives as a whole In *Your Whole Life* Murphy asks what accounts for the unity of a human life over time He advocates for an unconventional developmental story of human nature based on a nested hierarchy of three powers first each person's unique human genome insures biological identity over time second each person's powers of imagination and memory insure psychological identity over time and third each person's ability to tell his or her own life story insures narrative identity over time Just as imagination and memory rely upon our biological identity so our autobiographical stories rest upon our psychological identity Narrative is not the foundation of personal identity as many argue but its capstone Engaging with the work of Aristotle Augustine Jesus and Rousseau as well as with the contributions of contemporary evolutionary biologists and psychologists Murphy challenges the widely shared assumptions in Western thinking about personhood and its development through discrete stages of childhood adulthood and old age He offers instead a holistic view in which we are always growing and declining always learning and forgetting and always living and dying and finds that only in relation to one's whole life does the passing of time obtain meaning

Supernormal Meg Jay, 2017-12-28 In this seminal new study of resilience Meg Jay tells the stories of a diverse group of people who have overcome trauma in their childhoods to go on and live successful lives as adults These are the supernormal who having shouldered greater than average hardship as children defy expectation and achieve better than average success as adults But how and at what cost Whether it was experiencing parental divorce or growing up with an alcohol or drug abusing parent living with a parent or sibling with mental illness being bullied living in poverty being a witness to domestic violence suffering physical or emotional neglect the people Meg Jay introduces us to are all survivors She explores what they have in common that made it possible for them to transcend the trauma of their early years and to build successful adult lives And she asks the questions What was the cost of developing those powers And having survived even thrived how do you go on and build a trusting fulfilled life Drawing on her clinical experience with survivors of childhood trauma Meg Jay documents ordinary people made extraordinary by the experience of all too common

trauma Bringing together personal scientific and cultural knowledge Jay gives a voice to the experience of the supernormal furnishes them with the tools to better understand themselves and take full advantage of their strengths and gives a window into their world for those who seek to understand them **The Craft of the Secure Base Coach** Jakob van

Work is Love Made Visible Frances Hesselbein, Marshall Goldsmith, Sarah McArthur, 2018-10-23

Channel happiness and find your purpose with stories from the world's leading minds. *Work is Love Made Visible* offers the insights of some of the world's greatest thought leaders as they tackle one of life's most difficult treasure hunts: finding purpose. The word purpose is big. Very big. And heavy. It carries the weight of a lifetime of work and struggle, the weight of legacy and the mass of days spent not doing something else. It's something we all grapple with at some point; some of us find our purpose, others spend a lifetime searching. A lucky few grow to realize they've been working their purpose all along. Most of us aren't quite that lucky. Often fulfilling your purpose requires some kind of change: career, lifestyle, habits, family, and what then? Are we selfish for the upheaval, or are we fulfilling destiny? Once we know our purpose, how do we pursue it? This book asked those very questions of people who have followed their purpose and succeeded on a global scale. Their undistilled answers are here, lending you the wisdom of their experiences, their examples, inspiration, and motivations as they tackle the universal struggle with individual purpose and meaning. Illustrate how personal thought patterns contribute to real-world action. Move challenges into the opportunities of their lives. Reveal how they arrived at their life's purpose and what they sacrificed to get there. We all want a meaningful life. We want to work together for a brighter future; we want to celebrate our differences and commit to good. We want to inspire others, nurture their talents, and help them grow. We want to look back one day on a life well lived and leave something behind that matters to the world. *Work is Love Made Visible* shows you how some of us have succeeded and offers you insight and guidance so that you can do the same.

Becoming Like a Child Jerome Berryman, 2017

Berryman invites the reader into a creative process that explores what it means to be spiritually mature, starting with Jesus' injunction to become like a child. What does this mean at the literal level, the figurative level, the mystical level, the ethical level? The structure of the process parallels the book's organization and the structure of Christian worship, as well as the arc of life itself. The steps on this journey begin when we enter the world of childlike maturity, opens to us as we respond with inarticulate wonder and gratitude. This book, like *The Spiritual Guidance of Children*, is less academic and has broader scope than *Children and the Theologians*. Berryman includes stories and examples from his long career working with children, which adds warmth and appeal to the book. He has described this volume as his summary theological statement.

Audience: Those interested in Berryman's work, the Godly Play community, those interested in personal spiritual growth, Christian educators, clergy, those interested in the spiritual.
