

Summary of Communication Research Project

Introduction

Background

Communication research studies physical and sensory perception of communication in the workplace.

How does the physical office environment influence communication in the workplace?

Research topics include: noise, lighting, temperature.

Employees working in offices spend most of their time working within the walls of their

office buildings. When their office physical environment significantly impacts their

communication in the workplace, it is workplace setting, or environment, research.

Employment in the past century with physical and sensory perception, all these factors are

communication factors and research areas. Workplace physical environment research is

lighting, air quality, office temperature, and noise reduction in the workplace environment.

Workplace communication and research topics from the past century include:

improving the office environment through the physical and sensory perception and research

workplace environment, including air, and light, and noise. Research on noise and light

reduction in the workplace environment and physical environment research.

Communication in the workplace: how the office environment affects communication in the workplace.

Communication in the workplace: how the office environment affects communication in the workplace.

Research on noise and light reduction in the workplace environment.

Research on noise and light reduction in the workplace environment.
