Nooit Meer Slapen Willem Frederik Hermans:

Over Nooit meer slapen van W.F. Hermans August Hans den Boef, 1984 *Transit* □ 'Norden' och 'Europa' Petra Broomans, Ester Jiresch, Janke Klok Klok, Anja Schüppert, 2019-04-30 The IASS International Association for Scandinavian Studies is the international organization for the research of Nordic literature culture and linguistics Since 1956 the IASS conference has been organized every other year In 2016 the 31th IASS conference took place in Groningen Netherlands This 2016 conference revolved around the 21st century as an era characterized by dynamics with different implications These ongoing global transitions are reflected in the humanities the dichotomy between centre and periphery has invaded the literary discourse In many small language areas more translated literature is being published than literature written in the national language This implies that cultural mediators play a major role in the production of literature Their efforts are made visible in a transnational approach to the history of literature **W.F. Hermans, Nooit meer slapen** Jef van de Sande, 1983 Samenvatting en analyse van de roman aangevuld met gegevens over de auteur **Het bibliografische universum van Willem Frederik Hermans** Frans Anton Janssen, Sonja van Stek, 2000 Bibliografie van de afzonderlijk verschenen werken van de Nederlandse schrijver 1921 1995 **The Oxford Handbook of Names and Naming** Carole Hough, 2016-05-03 In this handbook scholars from around the world offer an up to date account of the state of the art in different areas of onomastics in a format that is both useful to specialists in related fields and accessible to the general reader Since Ancient Greece names have been regarded as central to the study of language and this has continued to be a major theme of both philosophical and linguistic enquiry throughout the history of Western thought The investigation of name origins is more recent as is the study of names in literature Relatively new is the study of names in society which draws on techniques from sociolinguistics and has gradually been gathering momentum over the last few decades The structure of this volume reflects the emergence of the main branches of name studies in roughly chronological order The first Part focuses on name theory and outlines key issues about the role of names in language focusing on grammar meaning and discourse Parts II and III deal with the study of place names and personal names respectively while Part IV outlines contrasting approaches to the study of names in literature with case studies from different languages and time periods Part V explores the field of socio onomastics with chapters relating to the names of people places and commercial products Part VI then examines the interdisciplinary nature of name studies before the concluding Part presents a selection of animate and inanimate referents ranging from aircraft to animals and explains the naming strategies adopted for them *The Ice Age* Jürgen Ehlers, Dr. Philip Hughes, Professor Philip L. Gibbard, 2016-01-19 This book provides a new look at the climatic history of the last 2.6 million years during the ice age a time of extreme climatic fluctuations that have not yet ended This period also coincides with important phases of human development from Neanderthals to modern humans both of whom existed side by side during the last cold stage of the ice age The ice age has seen dramatic expansions of glaciers and ice sheets although this has been

interspersed with relatively short warmer intervals like the one we live in today The book focuses on the changing state of these glaciers and the effects of associated climate changes on a wide variety of environments including mountains rivers deserts oceans and seas and also plants and animals For example at times the Sahara was green and colonized by humans and Lake Chad covered 350 000 km² larger than the United Kingdom What happened during the ice age can only be reconstructed from the traces that are left in the ground The work of the geoscientist is similar to that of a detective who has to reconstruct the sequence of events from circumstantial evidence The book draws on the specialisms and experience of the authors who are experts on the glacial history of the Earth Readership Undergraduate and postgraduate students studying the Quaternary researchers and anyone interested in climate change environmental change and geology The book provides a rich collection of illustrations and photographs to help the readers at all levels visualise the dramatic consequences of glacier expansions during the Ice Age

Picturing Fiction through Embodied Cognition Bien Klomberg, Theresa Schilhab, Michael Burke, 2022-02-15 This concise volume addresses the question of whether or not language and its structure in literary discourses determines individuals mental vision employing an innovative cross disciplinary approach using readers drawings of their mental imagery during reading The book engages in critical dialogue with the perceived wisdom in stylistics rooted in Roger Fowler s seminal work on deixis and point of view to test whether or not this theory can fully account for what readers see in their mind s eye and how they see it The work draws on findings from a study of English and Dutch across a range of literary texts in which participants read literary text fragments and were then asked to immediately draw representations of what they had seen envisioned Building on the work of Fowler and more recent theoretical and empirical language based studies in the area Klomberg Schilhab and Burke argue that models from embodied cognitive science can help account for anomalies in evidence from readers drawings indicating new ways forward for interdisciplinary understandings of individual meaning construction in literary textual interfaces This book will be of interest to students and scholars in stylistics cognitive psychology rhetoric and philosophy particularly those working in the field of embodied cognition The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial CC BY NC 4.0 license

Literatuur als noodzaak G. F. H. Raat, 2010 Over de schrijver Willem Frederik Hermans 1921-1995 en zijn werk zijn al talloze boeken geschreven Literatuur als noodzaak is echter de eerste studie die de verschillende aspecten van zijn schrijverschap in hun onderlinge samenhang belicht Aan de hand van zijn verhalende en beschouwende proza laat G. F. H. Raat zien hoe Hermans poëtische thematiek en techniek wortelen in zijn visie op het bestaan Hermans zag de literatuur als het ultieme wapen om zijn persoonlijke waarheid in de geest van zijn onwillige medemensen te branden Literatuur is voor hem een bestaansvoorwaarde en bittere noodzaak Deze werkelijkheidsconceptie komt tot uitdrukking in zijn thematiek vruchteloos proberen de personages van Hermans de buitenwereld te overtuigen van hun gelijk in een universum dat geen waarheid kent Tot slot plaatst Raat het werk van
