Tunç,Raymond Douglas Chong,2018-06-15 The essays in Chop Suey and Sushi from Sea to Shining Sea fill gaps in the existing food studies by revealing and contextualizing the hidden local histories of Chinese and Japanese restaurants in the United States The writer of these essays show how the taste and presentation of Chinese and Japanese dishes have evolved in sweat and hardship over generations of immigrants who became restaurant owners chefs and laborers in the small towns and large cities of America These vivid detailed and sometimes emotional portrayals reveal the survival strategies deployed in Asian restaurant kitchens over the past 150 years and the impact these restaurants have had on the culture politics and foodways of the United States Some of these authors are family members of restaurant owners or chefs writing with a passion and richness that can only come from personal investment while others are academic writers who have painstakingly mined decades of archival data to reconstruct the past Still others offer a fresh look at the amazing continuity and domination of the evil Chinaman stereotype in the foreign world of American Chinatown restaurants The essays include insights from a variety of disciplines including history sociology anthropology ethnography economics phenomenology journalism food studies and film and literary criticism Chop Suey and Sushi from Sea to Shining Sea not only complements the existing scholarship and exposes the work that still needs to be done in this field but also underscores the unique and innovative approaches that can be taken in the field of American food studies *Explorer's Guide Hudson Valley and*

*Catskill Mountains* Joanne Michaels, 2013-06-04 Details the attractions historic sites accommodations restaurants and outdoor activities of the Hudson Valley and the Catskill Mountains      Where to Eat Guide Portland - Spring Issue 2014 Where to Eat Guide & Associates,      *Hawaii* Greg Ward, 2001 This guide to Hawaii covers all of Hawaii's visited islands from the lush resorts and deluxe beaches to the interior wilderness rainforest and volcanoes The book provides comprehensive details on outdoor activities a detailed background on Hawaiian culture and in depth reviews of hotels restaurants and nightlife options to suit every budget      Cincinnati Magazine , 2002-09 Cincinnati Magazine taps into the DNA of the city exploring shopping dining living and culture and giving readers a ringside seat on the issues shaping the region      **Succeed In Software** Sean Cannon, 2023-01-05 Attention coders Are you earning less than 300 000 per year as a software engineer Have you been grinding away as a junior or mid level developer for too long and the promotions aren't coming Have you recently completed a coding boot camp and now you're in the deep end with no clear direction on how to advance your career This book can help you master the skills necessary to stand out at the top of our field While you wait for your next annual review you are helping to make your executive team rich while they pay you an entry level salary and consider you nothing more than a replaceable cog in the machine Over the past 20 years working as a software professional I have been collecting extremely valuable lessons that have helped me become one of the highest paid most reliable developers in my network I no longer worry about money I no longer work overtime and instead of competing with my peers for promotions I now have companies competing with each other for my time and skillset You don't need a college degree and you don't need to master a bunch of programming languages or become an expert at all the new libraries and frameworks to get where I am That is a waste of time and money and all you are doing is helping other people realize their goals instead of realizing your own The career ladder is simply a game of profits and resources and once you learn and understand how the people above you perceive value and who your clients really are you will soar past your colleagues If you don't want to spend years crawling your way to the top on your own like I did working twice as hard as everybody else just to get noticed for promotions then let me help you cut those years or even decades off that journey it's time to take control of your software career and kick it into high gear right now
