Carrière; Ancient art, by A. Marquand; Early Christian and mediaeval art, by A.L. Frothingham, jr.: Modern art, by S.G.W. Benjamin ,1887 The Development of a Russian Legal Consciousness Richard S. Wortman,2011-03-15 Until the nineteenth century the Russian legal system was subject to an administrative hierarchy headed by the tsar and the courts were expected to enforce not interpret the law Richard S Wortman here traces the first professional class of legal experts

who emerged during the reign of Nicholas I 1826-56 and who began to view the law as a uniquely modern and independent source of authority. Discussing how new legal institutions fit into the traditional system of tsarist rule, Wortman analyzes how conflict arose from the same intellectual processes that produced legal reform. He ultimately demonstrates how the stage was set for later events as the autocracy and judiciary pursued contradictory and mutually destructive goals. **Zero Plus One** J. Hills Miller, 2003. Estudio para un nuevo mundo globalizado que propone una Literatura Comparada no eurocentrista. Gustav Klimt Jane Rogoyska, Patrick Bade, 2012-01-17. I am not interested in myself as a subject for painting but in others particularly women. Beautiful, sensuous and above all erotic. Gustav Klimt's paintings speak of a world of opulence and leisure which seems aeons away from the harsh post-modern environment we live in now. The subjects he treats: allegories, portraits, landscapes and erotic figures contain virtually no reference to external events but strive rather to create a world where beauty above everything else is dominant. His use of colour and pattern was profoundly influenced by the art of Japan, ancient Egypt and Byzantium. Ravenna: the flat two-dimensional perspective of his paintings and the frequently stylised quality of his images form an oeuvre imbued with a profound sensuality and one where the figure of woman above all reigns supreme. Klimt's very first works brought him success at an unusually young age. Gustav, born in 1862, obtained a state grant to study at Kunstgewerbeschule, the Vienna School of Arts and Crafts, at the age of fourteen. His talents as a draftsman and painter were quickly noticed and in 1879 he formed the Künstlercompagnie, Artists Company, with his brother Ernst and another student, Franz Matsch. The latter part of the nineteenth century was a period of great architectural activity in Vienna. In 1857 the Emperor Franz Joseph had ordered the destruction of the fortifications that had surrounded the medieval city centre. The Ringstrasse was the result: a budding new district with magnificent buildings and beautiful parks, all paid for by public expenses. Therefore the young Klimt and his partners had ample opportunities to show off their talents and they received early commissions to contribute to the decorations for the pageant organised to celebrate the silver wedding anniversary of the Emperor Franz Joseph and the Empress Elisabeth. In 1894 Matsch moved out of their communal studio and in 1897 Klimt together with his closest friends resigned from the Künstlerhausgenossenschaft, the Cooperative Society of Austrian Artists, to form a new movement known as the Secession, of which he was immediately elected president. The Secession was a great success, holding both a first and second exhibition in 1898. The movement made enough money to commission its very own building, designed for it by the architect Joseph Maria Olbrich. Above the entrance was its motto: To each age its art, to art its freedom. From around 1897 onward Klimt spent almost every summer on the Attersee with the Flöge family. These were periods of peace and tranquillity in which he produced the landscape paintings constituting almost a quarter of his entire oeuvre. Klimt made sketches for virtually everything he did. Sometimes there were over a hundred drawings for one painting.

each showing a different detail a piece of clothing or jewellery or a simple gesture Just how exceptional Gustav Klimt was is perhaps reflected in the fact that he had no predecessors and no real followers He admired Rodin and Whistler without slavishly copying them and was admired in turn by the younger Viennese painters Egon Schiele and Oskar Kokoschka both of whom were greatly influenced by Klimt **The Art Journal** ,1884 Vol for 1867 includes Illustrated catalogue of the Paris Universal Exhibition
