

## BONUS WARRIORS

You receive bonus warriors a maximum of two times during the game. The first Bonus Warrior is awarded after the third level dungeon. The second Bonus Warrior is awarded before you enter The Pit for the first time.

The Wizard of Wor says, "Scores of 150,000 or more are exceptional."

## HELPFUL HINTS

In the basic dungeons you learn the fundamentals of survival. First of all, remember that you are a noble warrior. This means that you want to fight the monsters, not run away. Try to kill off as many monsters as you can early in each round. If you waste time waiting or running, the monsters will speed up until they run faster than you which makes firing at them much more difficult. Only one shot per warrior can be in the air at a time. Therefore, in a short corridor you can fire very fast because your shot will always hit a wall quickly. In a long corridor, the shot stays in the air for a long time, leaving you in hot water if a monster attacks from the side.

If your shot seems to go in the wrong direction, it's because your warrior has not fully rounded a corner before you fired a shot. Learning when not to shoot is a very important strategy for a successful warrior.

If one of your warriors gets eaten or shot, check your Radar to make sure there are no monsters near your entry gate, and then bring in another right away. This is, particularly useful against Worluk, whose chaotic nature keeps him from escaping rapidly. It's often possible to bring in your second warrior and kill Worluk for a double score on the next dungeon, before he escapes. Killing the Worluk is essential to high scoring. It's usually a good idea to move your warrior in front of the door that the Worluk should use to escape.

Teamwork can be a major point of strategy in Wizard of Wor. In the basic dungeons, you and your partner can position your warriors to cut off the monsters as they try to enter the corridor that the warriors are standing in. But watch out! This position is strong, but not invincible. When it comes to short corridors, back to back teamwork is a good idea.

In the advanced maps, the Worlord Dungeons, be extra careful when firing off a shot. If a shot misses a monster, it's likely that it will travel a long way before hitting a wall. In that time, a monster will probably show up and eat your warrior. In some Worlord dungeons, there are places that a team of warriors can defend effectively. But beware! one player can easily lose a warrior while trying to move into position.

When you reach THE PIT, you're on your own.

As for the Wizard of Wor, there is no easy way to defeat him. However, you can minimize your risks by not standing in long corridors. If you are in a long

corridor and the Wizard teleports into that alley, he will have a clear shot at you. Try to shoot the Wizard as soon as he appears. The longer you wait, the more likely he is to teleport right next to you. The Wizard also likes to play deadly games with warriors by popping up from behind.

## THE WIZARD SPEAKS

The most unique feature of the WIZARD OF WOR is that he actually talks to you while the game is in play (if you have a Commodore Speech Module). At any point in the game the Wizard may try to distract or harass you by speaking threatening phrases.

Now, go forth noble warrior, and do battle with the Wizard of Wor!
