Woman And Nature The Roaring Inside Her Susan Griffin:

Woman and Nature Susan Griffin, 2000 In this famously provocative cornerstone of feminist literature Susan Griffin explores the identification of women with the earth both as sustenance for humanity and as victim of male rage Starting from Plato's fateful division of the world into spirit and matter her analysis of how patriarchal Western philosophy and religion have used language and science to bolster their power over both women and nature is brilliant and persuasive coming alive in poetic prose Griffin draws on an astonishing range of sources from timbering manuals to medical texts to Scripture and classical literature in showing how destructive has been the impulse to disembodiment the human soul and how the long separated might once more be rejoined Poet Adrienne Rich calls *Woman and Nature* perhaps the most extraordinary nonfiction work to have merged from the matrix of contemporary female consciousness a fusion of patriarchal science ecology female history and feminism written by a poet who has created a new form for her vision The book has the impact of a great film or a fresco yet it is intimately personal touching to the quick of woman's experience At Home on this Earth Lorraine Anderson, Thomas S. Edwards, 2002 The first chronological presentation of U.S. nature writing by key women authors of the last two centuries **This Sacred Earth** Roger S. Gottlieb, 1996 This is the first comprehensive survey of the critical connections between religion nature and the environment It includes writings from sacred texts and a broad spectrum of new eco-theological selections Historical and contemporary selections from key authors and a multicultural range of sources make *This Sacred Earth* an invaluable teaching resource and a unique introduction to the theory and practice of religious environmentalism Women as Mythmakers Estella Lauter, 1984-07-22 impressive work of scholarship Exceptional Human Experience Speaking for Nature Sylvia Bowerbank, 2004-06-28 The book contains perceptions of nature and ecology in writings by English women authors from the sixteenth seventeenth and eighteenth centuries Includes discussion of works by the writers Mary Wroth ca 1586 ca 1640 Margaret Cavendish 1624 1674 Mary Rich Warwick 1625 1678 Catherine Talbot 1721 1770 Mary Wollstonecraft 1759 1797 **Eco-theology** Celia Deane-Drummond, 2008 Concern for the environment has developed and intensified over the last few decades to the point where it now dominates much of our contemporary political landscape and culture In *Eco Theology* Celia Deane Drummond offers a comprehensive resource book for this burgeoning field of enquiry that highlights and seeks to evaluate the merits or otherwise of contemporary eco-theologies She introduces the reader to critical debates in eco-theology tracing trends from around the globe and key theological responses and encourages reflection and analysis through further reading sections at the end of each chapter and questions for discussion Publisher **An American Triptych** Wendy Martin, 2016-09-01 Anne Bradstreet Emily Dickinson and Adrienne Rich share nationality gender and an aesthetic tradition but each expresses these experiences in the context of her own historical moment Puritanism imposed stringent demands on Bradstreet romanticism both inspired and restricted Dickinson and feminism challenged as well as liberated Rich Nevertheless each poet succeeded in forming a personal vision

that counters traditional male poetics Their poetry celebrates daily life demonstrates their commitment to nurturance rather than dominance shows their resistance to the control of both their earthly and heavenly fathers and affirms their experience in a world that has often denied women a voice Wendy Martin recreates the textures of these women's lives showing how they parallel the shifts in the status of American women from private companion to participant in a wider public life The three portraits examine in detail the life and work of the Puritan wife of a colonial magistrate the white robed reclusive New England seer and the modern feminist and lesbian activist Their poetry Martin argues tells us much about the evolution of feminist and patriarchal perspectives from Bradstreet's resigned acceptance of traditional religion to Dickinson's private rebellion to Rich's public criticism of traditional masculine culture Together these portraits compose the panels of an American triptych Beyond the dramatic contrasts between the Puritan and feminist vision Martin finds striking parallels in form An ideal of a new world whether it be the city on the hill or a supportive community of women inspires both Like the commonwealth of saints this concept of a female collectivity which all three poets embrace is a profoundly political phenomenon based on a pattern of protest and reform that is deeply rooted in American life Martin suggests that through their belief in regeneration and renewal Bradstreet Dickinson and Rich are part of a larger political as well as literary tradition An American Triptych both enhances our understanding of the poets work as part of the web of American experience and suggests the outlines of an American female poetic

Contesting Earth's Future Michael E. Zimmerman, 2023-11-15 Radical ecology typically brings to mind media images of ecological activists standing before loggers saws staging anti nuclear marches and confronting polluters on the high seas Yet for more than twenty years the activities of organizations such as the Greens and Earth First have been influenced by a diverse less publicized group of radical ecological philosophers It is their work the philosophical underpinnings of the radical ecological movement that is the subject of *Contesting Earth's Future* The book offers a much needed balanced appraisal of radical ecology's principles goals and limitations Michael Zimmerman critically examines the movement's three major branches deep ecology social ecology and ecofeminism He also situates radical ecology within the complex cultural and political terrain of the late twentieth century showing its relation to Martin Heidegger's anti technological thought 1960s counterculturalism and contemporary theories of poststructuralism and postmodernity An early and influential ecological thinker Zimmerman is uniquely qualified to provide a broad overview of radical environmentalism and delineate its various schools of thought He clearly describes their defining arguments and internecine disputes among them the charge that deep ecology is an anti modern proto fascist ideology Reflecting both the movement's promise and its dangers this book is essential reading for all

those concerned with the worldwide ecological crisis Radical ecology typically brings to mind media images of ecological activists standing before loggers saws staging anti nuclear marches and confronting polluters on the high seas Yet for more than twenty years the activities of organizations such as **Feminist Criticism and Social Change (RLE Feminist Theory)** Deborah Rosenfelt, Judith Newton, 2013-05-20 This lively and controversial collection of essays sets out to theorize and practice a materialist feminist criticism of literature and culture Such a criticism is based on the view that the material conditions in which men and women live are central to an understanding of culture and society It emphasises the relation of gender to other categories of analysis such as class and race and considers the connection between ideology and cultural practice and the ways in which all relations of power change with changing social and economic conditions By presenting a wide range of work by major feminist scholars this anthology in effect defines as well as illustrates the materialist feminist tendency in current literary criticism The essays in the first part of the book examine race ideology and the literary canon and explore the ways in which other critical discourse such as those of deconstruction and French feminism might be useful to a feminist and materialist criticism The second part of the book contains examples of such criticism in practice with studies of individual works writers and ideas An introduction by the editors situates the collected essays in relation both to one another and to a shared materialist feminist project **Feminist Criticism and Social Change** demonstrates the important contribution of materialist feminist criticism to our understanding of literature and society and fulfils a crucial need among those concerned with gender and its relation to criticism **Fifty Key Thinkers on the Environment** Joy A. Palmer, David E. Cooper, David Cooper, 2002-09-11 *Fifty Key Thinkers on the Environment* is a unique guide to environmental thinking through the ages Joy A Palmer herself an important and prolific author on environmental matters has assembled a team of thirty five expert contributors to summarize and analyse the thinking of fifty diverse and stimulating figures from all over the world and from ancient times to the present day Among those included are Philosophers such as Rousseau Spinoza and Heidegger Activists such as Chico Mendes Literary giants such as Virgil Goethe and Wordsworth Major religious and spiritual figures such as the Buddha and St Francis of Assisi Lucid scholarly and informative these fifty essays offer a fascinating overview of mankind's view and understanding of the physical world *Encyclopedia of Religion and Nature* Bron Taylor, 2008-06-10 The *Encyclopedia of Religion and Nature* originally published in 2005 is a landmark work in the burgeoning field of religion and nature It covers a vast and interdisciplinary range of material from thinkers to religious traditions and beyond with clarity and style Widely praised by reviewers and the recipient of two reference work awards since its publication see www.religionandnature.com *ern* this new more affordable version is a must have book for anyone interested in the manifold and fascinating links between religion and nature in all their many senses **Literature of Nature** Patrick D. Murphy, Terry Gifford, Katsunori Yamazato, 1998 First Published in 1999 Routledge is an imprint of Taylor Francis an informa company *The Wisdom of Trees* David Macauley, Laura Pustarfi, 2025-06-01 Pioneering essays that

reveal the significance of new interdisciplinary understandings of trees and forests especially in terms of their philosophical and ecological dimensions and their importance for addressing the climate emergency This is the first book to apply philosophical thinking to trees Through a series of sixteen diverse essays by leading scholars and writers along with an in depth introduction to the key issues and ideas it examines the new and emerging understanding of trees in science and society Contributors show how these developments encourage a revisioning of philosophical thought and a more sustainable relationship with trees and forests a reconceptualization with important ecological and social implications for responding to deforestation the loss of biodiversity and the climate emergency The interdisciplinary contributions in this collection investigate the many interconnected dimensions of arboreality focusing on subjects related to time mind truth memory being beauty goodness silence wisdom personhood and death The volume engages in a conversation about why trees matter how they can best be protected our obligations to them and even what or who they are Most of the chapters are informed by natural history or ecological science and many share a particular emphasis on continental philosophy and the environmental humanities

In the Company of Rebels Chellis Glendinning, 2019-05-14 Meetings with remarkable activists since the 1960s American social change movements dominated the 1960s and 1970s an era brought about and influenced not by a handful of celebrity activists but by people who cared These history makers together transformed the political and spiritual landscape of America and laid the foundation for many of the social movements that exist today Through a series of 43 vignettes tight biographical sketches of the characters and intimate memories of her personal encounters with them the author creates a collective portrait of the rebels artists radicals and thinkers who through word and action raised many of the issues of justice the environment feminism and colonialism that we are now familiar with From Berkeley to Bolivia from New York to New Mexico a complex multi layered radical history unfolds through the stories and lives of the characters From Marty Schiffenhauer who fought through the first rent control law in the United States to Ponderosa Pine who started the All Species Parade and never wore shoes to Dan and Patricia Ellsberg who released the Pentagon Papers and became life long anti war and antinuclear activists the portraits bring out some of the vibrant irreverent energy the unswerving commitment and the passion for life of these generations of activists In our present moment as many people find themselves in the streets protesting for the first time in their lives *In the Company of Rebels* makes the connection to this relatively recent rebellious era As the author comments on her own twenty year old self sitting at the counter of Cody s Books in Berkeley in the early 1970s thrilled about the times but oblivious of the work that came before I didn t know anything about this courageous and colorful past But now I know

The Environmental Imagination Lawrence Buell, 1996-09-01 With Thoreau s *Walden* as a touchstone Buell offers an account of environmental perception the place of nature in the history of Western thought and the consequences for literary scholarship of attempting to imagine a more ecocentric way of being In doing so he provides a profound rethinking of our literary and cultural reflections on nature

Enduring Liberalism Robert Booth Fowler, 1999

Enduring Liberalism pursues two objectives One it explores the political thought of public intellectuals and the general public since the 1960s Two it assesses contemporary and classic interpretations of American political thought in light of the study's findings

BOOK JACKET Ecological and Social Healing Jeanine M. Canty, 2016-10-04 This book is an edited collection of essays by fourteen multicultural women including a few Anglo women who are doing work that crosses the boundaries of ecological and social healing The women are prominent academics writers and leaders spanning Native American Indigenous Asian African Latina Jewish and Multiracial backgrounds The contributors express a myriad of ways that the relationship between the ecological and social have brought new understanding to their experiences and work in the world Moreover by working with these edges of awareness they are identifying new forms of teaching leading healing and positive change Ecological and Social Healing is rooted in these ideas and speaks to an edge awareness or consciousness In essence this speaks to the power of integrating multiple and often conflicting views and the transformations that result As women working across the boundaries of the ecological and social we have powerful experiences that are creating new forms of healing This book is rooted in academic theory as well as personal and professional experience and highlights emerging models and insights It will appeal to those working teaching and learning in the fields of social justice environmental issues women's studies spirituality transformative environmental sustainability leadership and interdisciplinary intersectionality studies

The Good-natured Feminist Catriona Sandilands, 1999 Annotation Heroic mothers defending home and hearth against a nature deformed by multinationalist corporate practice this may be a compelling story but it is not necessarily the source of valid feminist or ecological critique What's missing is the democratic element an insistence on bringing to public debate all the relations of gender and nature that such a view takes for granted This book aims to situate a commitment to theory and politics that is to democratic practice at the center of ecofeminism and thus to move toward an ecofeminism that is truly both feminist and ecological The Good Natured Feminist inaugurates a sustained conversation between ecofeminism and recent writings in feminist postmodernism and radical democracy Starting with the assumption that ecofeminism is a body of democratic theory the book tells how the movement originated in debates about nature in North American radical feminisms how it then became entangled with identity politics and how it now seeks to include nature in democratic conversation and especially to politicize relations between gender and nature in both theoretical and activist milieus
