Ethical Chic Fran Hawthorne,2012-06-19 How popular companies like Apple and Trader Joe s project a hip progressive image and whether we should believe them Consumers are told that when they put on an American Apparel t shirt leggings jeans gold bra or other item they look hot Not only do they look good but they can also feel good because they are helping US workers earn a decent wage never mind that some of those female workers have accused their boss of sexual harassment And when shoppers put on a pair of Timberlands they feel fashionable and as green as the pine forest they might trek through that is until they re reminded that this green company is in the business of killing cows But surely even the pickiest most organic most politically correct buyers can feel virtuous about purchasing a tube of Tom s toothpaste right After all with its natural ingredients that have never been tested on animals this company has a forty year history of being run by a nice couple from Maine well ahem until it was recently bought out by Colgate It s difficult to define what makes a company hip and also ethical but some companies seem to have hit that magic bull s eye In this age of consumer activism pinpoint marketing and immediate information consumers demand everything from the coffee computer or toothpaste they buy They want an affordable reliable product manufactured by a company that doesn t pollute saves energy treats its workers well and doesn t hurt animals oh and that makes them feel cool when they use it Companies would love to have that kind of reputation and a handful seem to have achieved it But do they deserve their haloes Can a company make a profit doing so And how can consumers avoid being tricked by phony marketing In Ethical Chic award winning author Fran Hawthorne uses her business investigative skills to analyze six favorites Apple Starbucks Trader Joe s American Apparel Timberland and Tom s of Maine She attends a Macworld conference and walks on the factory floors of American Apparel She visits the wooded headquarters of Timberland speaks to consumers who drive thirty miles to get their pretzels and plantains from Trader Joe s and confronts the founders of Tom s of Maine More than a how to guide for daily dilemmas and ethical business practices Ethical Chic is a blinders off and nuanced look at the mixed bag of values on sale at companies that project a seemingly progressive image

muestran cómo el habla está conectada con nuestro bienestar físico y emocional. Basándose en esa investigación, Dan desarrolló una serie de prácticas que cambiaron su vida y pueden cambiar la tuya también. Nuestro ruidoso mundo nos ha enseñado a pensar que los que dicen la última palabra son los que ganan, cuando en realidad son los que saben guardar silencio los que realmente tienen el poder. STFU es un libro que desbloquea este poder liberándote para centrarte en lo que importa. Lyons combina la ciencia del comportamiento más avanzada con consejos prácticos sobre cómo comunicarse con intención, pensar de forma crítica y abrir la mente y los ojos al mundo que le rodea. Habla menos, consigue más. De eso trata STFU. Prescriptivo, informativo y de lectura adictiva, STFU te da las herramientas para convertirte en tu mejor yo ya sea en la oficina, en casa, en Internet o en tus relaciones más preciadas. Porque al fin y al cabo, lo que dices es lo que eres. Así que respira hondo, pasa la página y cambia tu vida en silencio. Entretenido, esclarecedor e inspirador. Más que un libro, es un anuncio de servicio público que todos harán bien en escuchar. Sarah Knight, autora de *Calm the F*ck Down*, bestseller del New York Times. Lyons se abre paso entre el ruido, incluso cuando lo critica. Oportuno, inteligente e importante. Hace falta decir más. Probablemente no. David Litt, ex redactor de discursos del presidente Barack Obama y autor del bestseller del New York Times. Gracias, Obama. *The Book Review Digest*, 2007. **Newsweek**, 2009-04. **The Writers Directory**, 2013. *Creativity, Technology & Education: Exploring their Convergence*. Punya Mishra, Danah Henriksen, 2017-12-04. In this collection of beautifully written essays, Mishra, Henriksen, and the Deep Play Research Group challenge myths about technology and creativity, debate time-honored instructional practices, and play with new ideas for schools to care for and nurture rather than constrain creativity. These essays are provocative, refreshing, and insightful. Dr. Yong Zhao, Foundation Distinguished Professor, University of Kansas, and Fellow, Mitchell Institute for Health and Education Policy, Victoria University, Australia. What is creativity? Why is it important? What does it look like across different disciplines and contexts? What role does technology play, if any, in the creative process? And finally, what do creativity and technology have to do with education? These are the questions that underlie the collection of articles in this book. These essays provide a broad analytic frame for thinking about creativity, technology, and education, and describe classroom examples as well as strategies for evaluating creative artifacts and creative environments. All of these are grounded in specific examples from across a wide range of disciplines and contexts: art, mathematics, engineering, computer science, graphic design, architecture, science, to name just a few. The final essays take a broader perspective on creativity and technology, focusing both on our highly interconnected YouTube world but also on possibilities for the future. *Creativity, Technology, Education: Exploring their Convergence* is a vital resource for educators and practitioners as they seek to incorporate creative work and thoughtful pedagogy in their personal and professional lives.
