Divine Guidance John A. Jillions,2020-01-24 The twenty first century opened with the religiously inspired attacks of 9 11 and in the years since such attacks have become all too common Over against the minority who carry out violence at God s direction however there are millions of believers around the world who live lives of anonymous kindness They also see their actions as guided by the divine How is divine guidance to be understood against the background of such diametrically opposed results How to make sense of both Osama bin Laden and Mother Teresa In order to answer this question John A Jillions turns to the first century world of Corinth where Jews Gentiles and early Christians intermixed and vigorously debated the question of divine guidance In this ancient melting pot the ideas of writers and poets philosophers rabbis prophets and the apostle Paul confronted and complemented each other These writers reveal a culture that reflected deeply
