Great Britain: Parliament: House of Lords: Select Committee on Economic Affairs,2010-03-17 A report that recommends a reform of the way financial liabilities arising from private finance projects PFPs are treated in public accounts It also deals with the growth in the secondary market for PFPs where investors sell on their stake in a project in many cases once the construction period of that project has been completed

#### **A Guide to the Procurement of Privately Financed Projects**

Douglas Lamb,Tony Merna,2004-09-27 A guide to the procurement of privately financed projects an indicative assessment of the procurement process outlines the concept of privately financed projects PFP that can be used for both public private and private private interactions Utilising models from many countries the guide develops a robust procurement system applicable to PFP and project finance in both the EU and overseas This guide provides a systematic approach for the preparation and evaluation of privately financed projects PFP and services It is intended to assist both the Principal often a public body and the Promoter private body at each phase of the procurement process from inception through to financial closure Principals using this guide should be able to adapt the private finance procurement process for their specific organisation and business sector Moreover in the case of the promoting organisation the guide provides an appreciation of the steps that occur and the various processes undertaken and the associated costs of bidding A guide to the procurement of privately financed projects an indicative assessment of the procurement process provides an invaluable understanding of the critical facets involved in PFP and suggests frameworks for developing objective orientated procurement elements

#### **Project Finance for**

**Construction** Anthony Higham,Carl Bridge,Peter Farrell,2016-12-08 The world of construction is intrinsically linked with that of finance from the procurement and tendering stage of projects right through to valuation of buildings In addition to this things like administrations liquidations mergers take overs buy outs and floatations affect construction firms as they do all other companies This book is a rare explanation of common construction management activities from a financial point of view While the practical side of the industry is illustrated here with case studies the authors also take the time to build up an

understanding of balance sheets and P L accounts before explaining how common tasks like estimating or valuation work from this perspective Readers of this book will not only learn how to carry out the tasks of a construction cost manager quantity surveyor or estimator they will also understand the financial logic behind them and the motivations that drive senior management This is an essential book for students of quantity surveying or construction management and all ambitious practitioners

**Legal Aspects of Privately Financed Infrastructure Projects (PFIPs) in China** Shuang Liang,2020-08-01 This book discusses the reform and improvement of Chinese legislation on Privately Financed Infrastructure Projects PFIPs the goal being to help its implementation in China satisfy international standards In this regard current Chinese laws are found to be insufficient when it comes to reducing risks to PFIPs due to certain shortcomings Therefore the corresponding legislation must be reformed and improved The Legislative Guide and Model Provisions drafted by UNCITRAL are discussed as the international standards that can effectively guide this reform other countries laws on PFIPs provide supplementary reference material Given the rapid rise in the use of PFIPs in China this book offers a strong theoretical basis for improving Chinese legislation It also provides general suggestions that can be applied to the reform of laws on PFIPs in any country

**Public Private**

**Partnerships Renegotiations in Transportation** Carlos Oliveira Cruz,Joaquim Miranda Sarmiento,2022-05-13 There is a growing interest in Public Private Partnerships PPPs particularly in infrastructure and public services Under the scope of PPPs renegotiations are becoming more relevant as empirical evidence suggests that most PPP projects are inevitably renegotiated i.e the original contract needs to be adapted to new and unforeseen circumstances Renegotiations have a substantial impact on the contract and performance of a PPP and usually represent significant costs for users and taxpayers However very little is known about the management and mainly the process of renegotiating that will very likely occur This book provides a set of case studies of PPP renegotiations in the transport sector The authors illustrate the Portuguese experience a country that has been using PPP extensively particularly in transport The case studies provide an extensive and detailed analysis on each aspect of the project and the renegotiation What drives renegotiations Why are some projects more renegotiated than others What are the results How can the performance of renegotiation processes be improved These and other questions provide the basis for the discussions in this book The novelty and value of the book come mainly from the extent of information available Each case study deals with these questions in much more detail than what is common in the case studies approach
