SUBJECT: GS750 SET-UP MANUAL CORRECTION

It has come to our attention that the correct placement of the speedometer and tachometer assembly that is to be mounted on the steering stem head, is not clear in the GS750 Set-Up Manual (page 8, paragraph 2). Please make a note in your existing Set-Up Manual that the tachometer and speedometer assembly is to be mounted to the lower side of the steering stem head as illustrated below.

Special attention should be given to placement of the rubber grommet which is to be installed between the steering stem head and the Tachometer-Speedometer bracket. If not installed properly the indicating needles of both gauges will read incorrectly.
