Thinker, Thought and Knowledge V.N. Mishra, 2022-11-08 *Thinker Thought and Knowledge* critically and analytically reasons that some of the philosophical

expositions like thought has created the thinker and higher order thoughts are themselves conscious hinder us from explaining our sense of unity of consciousness This book presents and elucidates some observations thought cannot create thinker along with thinker and thought thinking too is quintessential for individual experience to take place thinker thinking and thought are fundamentally one in self consciousness thought becomes the object of self consciousness and the modern science attempts to undermine the principle of causation from the East West perspective and registers its disapproval with the philosophical views of scholars like J Krishnamurti and a few other modern philosophers Coming to the knowledge aspect the volume delineates the relative existence and knowledge dealing with the absolute reality and discusses it on the basis of Advaita Vedānta and the Yogic and Vijnāna of the Buddhist philosophy along with Immanuel Kant's theory of knowledge The researcher's approach employed in this volume should help the students of philosophy and other discerning readers take an analytical and critical positioning towards many a philosophical problem that they come across

The Japanese Talmud Christopher L. Schilling,2023-07-18 The image of Jews in East Asia is a strange mixture of opposites a paradoxical blend of admiration and mockery identification and denial This book explores what Jew means to many East Asians and whether it is anything that Jewish people themselves would recognise There is clearly a positive fascination various bestsellers entitled Talmud are found in vending machines and public schools while private Jewish education institutions have opened across South Korea claiming to improve children's IQ People can stay at the Talmud Business Hotel in Taiwan or attend Chinese centres for Jewish Studies with academics who have never met a Jew There is a legend that Japanese people are a Lost Tribe of Israel and Anne's day named after Anne Frank is a euphemism for menstruation Yet the region also shows some of the world's highest rates of antisemitism manifesting in disturbing ways Taiwan's concentration camp themed restaurant or South Korea's Adolf Hitler Techno Bar not Western and always persistent He offers ground breaking insight redefining how we understand East Asia antisemitism and Judaism as a globalised religion

The Great Migrator Hiroko Ikegami,Robert Rauschenberg,2010 Unlike other writers who have viewed the export of American art during the 1950s and 1960s as another form of Cold War propagandizing and famous American artists as cultural imperialists Ikegami sees the global rise of American art as a cross cultural phenomenon in which each art community Rauschenberg visited was searching in different ways for cultural and artistic identity in the midst of Americanization Rauschenberg's travels and collaborations established a new kind of transnational network for the postwar art world prefiguring the globalization of art before the era of globalization

Experiencing Epiphanies in Literature and Cinema Bradley Lewis,2024-07-09 Experiencing Epiphanies in Literature and Cinema uses health humanities and psychological humanities to explore literary and cinematic epiphanies James Joyce first adopted the term epiphany from its religious use to articulate moments of luminous intensity or sudden spiritual manifestation This study develops and extends Joyce's use of epiphany through a range of literary and cinematic examples from William Shakespeare to Ruth Ozeki and

from Yasujir Ozu to Jim Jarmusch This wealth of epiphanies in the arts is important from a health humanities perspective in that they provide access to aesthetic and sustainable experiences of well being joy and human flowering They also provide antidotes to aesthetics of anti epiphany a showing forth of terror horror and panic Experiencing Epiphanies is accordingly both critical and affirmative diagnostic and therapeutic It uses critique to understand the increasing need for well being in contemporary times and it uses affirmation to develop underutilized resources in the arts for transforming configuring and refiguring our everyday lives

graduate while immature teachers try to thwart and control us Openly sharing his own personal journey the author illustrates the lasting resonance of his encounters with several provocative spiritual mentors including Swami Muktananda and Dane Rudhyar He discusses how some fierce teachers practice crazy wisdom to confront our doubts fears and fixations and to activate our dormant potentials Examining practices in Hindu and Tibetan Buddhist Yoga Sufism and Jewish and Christian mysticism he also explores the deeper mystical aspects of the guru student relationship The author shows how ultimately initiation leads the spiritual seeker to find the teacher within and how this can naturally lead to teaching others Describing nine stages of the spiritual seeker s journey the author affirms that a direct path to self liberation is still attainable through initiation and instruction in the company of sages

Daitokuji Gregory P. A. Levine, 2005 The Zen Buddhist monastery Daitokuji in Kyoto has long been revered as a cloistered meditation centre a repository of art treasures and a wellspring of the Zen aesthetic Gregory Levine s *Daitokuji* unsettles these conventional notions with groundbreaking inquiry into the significant and surprising visual and social identities of sculpture painting and calligraphy associated with this fourteenth century monastery and its enduring monastic and lay communities The book begins with a study of Zen portraiture at Daitokuji that reveals the precariousness of portrait likeness the face that gazes out from an abbot s painting or statue may not be who we expect it to be or submit quietly to interpretation By tracing the life of Daitokuji s famed statue of the chanoyu patriarch Sen no Riky u 1522 91 which was all but destroyed by the ruler Toyotomi Hideyoshi 1537 98 but survived in Rashomon like narratives and reconstituted sculptural forms Levine throws light upon the contested status of images and their mytho poetic potential Levine then draws from the seventeenth century journal of K ogetsu S ogan Bokuseki no utsushi to explore practices of calligraphy connoisseurship at Daitokuji and the pivotal role played by the monastery s abbots within Kyoto art circles The book s final section explores Daitokuji s annual airings of temple treasures not merely as a practice geared toward preservation but also as a space in which different communities vie for authority over the artistic past An epilogue follows the peripatetic journey of the monastery s scrolls of the 500 Luohan from China to Japan to exhibition and partial sale in the West and back to Daitokuji Illuminating canonical and heretofore ignored works and mining a trove of documents diaries and modern writings Levine argues for the plurality of Daitokuji s visual arts and the breadth of social and ritual circumstances of art making and viewing within the monastery This diversity encourages reconsideration of stereotyped notions of Zen art and offers specialists and general readers alike opportunity to explore the fertile and sometimes volatile nexus of the visual arts and religious sites in Japan
