**Advances in Computer Systems Architecture** Pen-Chung Yew, Jingling Xue, 2004-08-19 On behalf of the program committee we were pleased to present this year's program for ACSAC Asia Pacific Computer Systems Architecture Conference. Now in its ninth year, ACSAC continues to provide an excellent forum for researchers, educators, and practitioners to come to the Asia Pacific region to exchange ideas on the latest developments in computer systems architecture. This year the paper submission and review processes were semiautomated using the free version of CyberChair. We received 152 submissions, the largest number ever. Each paper was assigned at least three, mostly four, and in a few cases seven, review committee members for review. All of the papers were reviewed in a 1-month period during which the program chairs regularly monitored the progress of the review process. When reviewers claimed inadequate expertise, additional reviewers were solicited. In the end, we received a total of 594 reviews, 3.9 per paper, from committee members as well as 248 coreviewers whose names are acknowledged in the proceedings. We would like to thank all of them for their time and effort in providing us with such timely and high quality reviews, some of them on extremely short notice.
