Overview of the evolution of agricultural mechanization in Nigeria Takeshima, Hiroyuki, Lawal, Akeem, 2018-08-17 Demand for mechanization in Nigeria is growing in a fairly consistent way predicted by economic theories The farming system has intensified and the use of animal traction has grown at a substantial rate Demand side factors considerably explain the low adoptions of tractors in Nigeria Where demand is sufficient for tractors the private sector has emerged over time as a more efficient provider of hiring services particularly farmer to farmer services than the public sector Conditions are consistent with the hypotheses that because of generally low support for the agricultural sector

in Nigeria in the past few decades agricultural mechanization tractor use in particular has remained low despite the declining share of the workforce engaged in the agricultural sector Agricultural transformation in the form of a declining agricultural labor force has happened partly through the growth in the oil industry since the 1970s Instead of inducing further exit from farming tractor adoptions in Nigeria might have helped those who have remained in farming to start expanding their production scale A knowledge gap however still remains regarding the dominance of large tractors and the potential effects of tractor adoptions on smallholders who have yet to adopt them **Solongus1** Hwang, Kyu-ho,2015-02-17 Solongus is a full length business novel focused on the on going automotive industry in the world Thus it is not a period novel on Turf Fight of Power But it is an epitome of warlike competition on a global product that is a horseless carriage automobile Currently global automakers such as GM Ford Toyota Volks Wagon BMW Benz Renault Fiat Hyundai Tata Chinese Big Four and other dark horses are fiercely competing for the market share in the world to get the popularity from earthlings as if they were Pretenders to the throne in the world Right here their class acts in the borderless battlefield are portrayed art of war in the Heroic Age In the book series their versatile strategies and skilled tactics are also revealed under the shiny commercial slogans of course with their own chariots **Daily Graphic** Ransford Tetteh,2010-03-03 **Making of the IIT Brand** Davender Jain,2022-05-24 This book is an attempt to look at the ordinary IITians the dreams they had the hardships and challenges they faced and the difference they made as told by the IITians themselves The book does not seek to glorify any particular IITian or focus on individual accomplishments Instead it looks at the stories of IITians from the first graduating class of 1955 till today The book is a chronicle of the history of IITs in a uniquely personal way and their contributions to India and in fact the whole world It looks at the making of the IIT brand Through the stories of IIT alumni readers may find answers to the question of what attracts global multinationals to IIT campuses to recruit at salaries similar to those of MIT and Harvard graduates The book is intended to be a light and interesting read Having said this it may be of particular interest to youngsters across the world who are interested in knowing about the struggles and success stories of IIT alumni students aspiring to enter IIT current students and faculty of new IITs who want to understand the culture and life of alumni in the older IITs people abroad who have heard the name of IIT and the accomplishments of its alumni people who want to know how the IIT brand came into existence and whose entrance exam is the most competitive exam in the world the loved ones of numerous alumni who have narrated their stories in this book This book is meant to be cherished by IIT alumni current IITians and the future generation of IITians **Indian Business Case Studies Volume I** Sandeep Pachpande,Asha Pachpande,J A Kulkarni,2022-06-20 It has been decades since many business schools outside India adopted the case study methodology for teaching almost all branches of management studies This trend has been seen in India too where top management institutes have implemented the case study based methodology as an important pedagogical tool in business education The major issue in India however is a severe shortage of Indian case studies through which business schools can

provide industry insights to students This volume fills that gap It has twenty Indian cases related to different aspects of business management The cases cover some of the prominent disciplines of management like marketing finance human resource management strategy management operations management accounting and mergers and acquisitions These cases best serve the purpose of adoption of case methodology in classroom teaching or online lecture sessions for the faculty and students of business management
