**Language Standardization and Language Change** Ana Deumert, 2004-01-01 *Language Standardization and Language Change* describes the formation of an early standard norm at the Cape around 1900 The processes of variant reduction and sociolinguistic focusing which accompanied the early standardization history of Afrikaans or Cape Dutch as it was then called are analysed within the broad methodological framework of corpus linguistics and variation analysis Multivariate statistical techniques cluster analysis multidimensional scaling and PCA are used to model the emergence of linguistic uniformity in the Cape Dutch speech

community The book also examines language contact and creolization in the early settlement the role of Afrikaner nationalism in shaping language attitudes and linguistic practices and the influence of English As a case study in historical sociolinguistics the book calls into question the traditional view of the emergence of an Afrikaans standard norm and advocates a strongly sociolinguistic speaker orientated approach to language history in general and standardization studies in particular

Decision Science and Technology James Shanteau, Barbara A. Mellers, David A. Schum, 2012-12-06 Decision Science and Technology is a compilation of chapters written in honor of a remarkable man Ward Edwards Among Ward's many contributions are two significant accomplishments either of which would have been enough for a very distinguished career First Ward is the founder of behavioral decision theory This interdisciplinary discipline addresses the question of how people actually confront decisions as opposed to the question of how they should make decisions Second Ward laid the groundwork for sound normative systems by noticing which tasks humans can do well and which tasks computers should perform This volume organized into five parts reflects those accomplishments and more The book is divided into four sections Behavioral Decision Theory examines theoretical descriptions and empirical findings about human decision making Decision Analysis examines topics in decision analysis Decision in Society explores issues in societal decision making The final section Historical Notes provides some historical perspectives on the development of the decision theory Within these sections major multi disciplinary scholars in decision theory have written chapters exploring some very bold themes in the field as an examination of the book's contents will show The main reason for the health of the Decision Analysis field is its close links between theory and applications that have characterized it over the years In this volume the chapters by Barron and Barrett Fishburn Fryback Keeney Moreno Pericchi and Kadane Howard Phillips Slovic and Gregory Winkler and above all von Winterfeldt focus on those links Decision science originally developed out of concern with real decision problems and applied work such as is represented in this volume will help the field to remain strong
