

# General Term Summary

## Grade 6 – Term 1

### Language Arts

In Language Arts, we focused on several types of functional writing, and extended our knowledge of reading strategies to deepen our understanding of literature. Our writing practice explored the traits of writing (organization, content, sentence structure, conventions and word choice). Students were also engaged in responding to a variety of writing prompts, which included regular blogging, personal reflections, descriptive paragraphs and persuasive arguments. Our class read aloud focused on the comprehension strategies of self-monitoring, making connections and making inferences. Further, students practiced their ability to manage ideas and information through research and engaged in many research activities that required them to access information, evaluate sources, record information and share their ideas and information. The above concepts were applied to real-world situations, as well as selected texts.

### Science

This term we performed an in-depth study of Topic A: Air and Aerodynamics, as well as Topic B: Flight. This included the properties of air, and specific ways that air movement can create lift. The class also focused on making observations as part of Topic C: Evidence and Investigation. Through the study of the topics, we applied the scientific process and used an investigative approach.

### Social Studies

**6.1 Citizens Participating in Decision Making:** The broad focus in Social Studies in Grade 6 is on active citizenship and how we can affect others through our decisions and understanding of the world around us. This term we studied decision-making processes, the components that make up democracy, and how our rights and freedoms are protected in Canada. Students learned and used this information by exploring their values and attitudes, applying their knowledge and understanding, and practicing a variety of skills and processes (active inquiry, critical thinking, reflection and using and managing information).

### Mathematics

**The strands of Number and Patterns and Relations:** While working with these strands, we looked at ways to describe patterns and relationships between numbers, and the different ways that we can write, describe and organize numbers. Students were required to represent and describe patterns and relationships using graphs and tables, understand relationships within tables of values to solve problems, develop and use equations with letter variables (basic algebraic equations), understand and apply the order of operations, demonstrate the meaning of preservation of equality and identify multiples and factors of various numbers.

**The strand of Shape and Space:** Angles and their relationships in different shapes were examined. Students were required to demonstrate the ability to identify angles in their environment, classify angles according to their measure, determine angle measures in degrees and understand the relationship between angles relative to their shape type (triangles and quadrilaterals).

Students are expected to demonstrate mathematical understanding by explaining their understanding, connecting mathematical ideas to other concepts and subject areas, demonstrating fluency with mental math, developing and applying new mathematical understanding through problem solving, developing mathematical reasoning, selecting and using technology as tools in problems solving and using visualization skills to assist in making connections and with problem solving. All of the above skills were used to solve problems that are encountered in daily life, and show how mathematics can be used in and out of the classroom.

Galvin,2009 Since 1868 Floridas oldest continually operating high school has been destroyed rebuilt moved and refocused existing under several namesOld Stanton High School New Stanton High School Stanton Vocational High School and now Stanton College Preparatory School Campus History Series Stanton gives a pictorial history of the buildings faculty student life and traditions that have left an indelible mark on African American life in Jacksonville through the years reflecting also its evolution into a nationally recognized diverse student body of the highest academic caliber Stantons story accomplishments and pride are showcased through photographs obtained from a variety of school records and from generous contributions by alumni previous staff and faculty and their families

**The Special Educator's Guide to Behavior Management** Paul Mooney,Joseph B. Ryan,2024-07-03 This accessible practitioner focused textbook details a comprehensive classroom behavior management framework that is easy to understand and implement within a K 12 classroom Influenced by decades of classroom teaching and special education teacher candidate preparation experiences the book features effective evidence based strategies designed to both prevent problem behaviors from occurring in classrooms and address challenging behaviors that presently exist or may arise Each of the book s four sections show readers step by

step how to develop implement and evaluate a personalized behavior management plan that best meets the unique needs of their classrooms which can vary tremendously in both size and types of students served From the first page to the last this new text addresses the reader in a friendly personal way in an effort to enhance accessibility and encourage them to want to understand the what and how of each strategy and or process and how it relates to the overall behavioral framework laid out in section one Ideal for both current and prospective special educators this book supports readers in developing their own comprehensive approach to classroom behavior management that can be implemented across grade levels **The**

**Fearon-Pitman Curriculum Development Library Index** ,1978 *A Resource Guide for Teaching* Richard Dean

Kellough,1997 Practical and thorough this engaging resource guide truly practices what it preaches hands on activities rich research based performance driven teaching Coverage integrates the best ideas from a broad spectrum of instructional approaches into an eclectic teaching model that the author characterizes as multilevel instruction This is truly one of the most comprehensive books on the market today made even better in this latest edition Coverage includes the relationship among curriculum standards assessment and high stakes testing what s need to establish and maintain a supportive learning environment and updated information on outstanding school programs For professionals in the field of teaching How to

Analyze Data Carol Taylor Fitz-Gibbon,Lynn Lyons Morris,1987 This book outlines the most basic and commonly used techniques of analyzing data which are not only suited to answering essential questions to be asked during an evaluation but will provide the reader with a strong basis for understanding statistics in general Introducing Nonroutine Math Problems

to Secondary Learners Robert London,2023-08-22 Offering secondary math educators an innovative holistic and process orientated approach for implementing nonroutine problems into their curriculum this book defines and establishes practical strategies to develop students problem solving skills The text focuses on the process skills necessary to solve nonroutine problems in mathematics and other subjects with the goal of making students better problem solvers both in and outside of the classroom Chapters present and define a curriculum of over 60 nonroutine problems in mathematics and other content areas and explore the pedagogy to implement this type of curriculum consistent with the NCTM Standards and Principles to Action Four different models of implementation are discussed alongside a structured approach through seven difficulty levels with examples to ensure that every student independent of their mastery of mathematics content can improve their ability to solve nonroutine problems It emphasizes to students how to transfer their problem solving skills to other real world areas including increasing ecological awareness appreciating diversity and addressing significant and meaningful problems in their life school and community The curriculum introduced in this book can be included as a component of a traditional four year academic high school curriculum aligned with the Common Core Mathematical Practices or as part of a one year isolated required or elective mathematics course Based on extensive field testing this approach has been effective in both traditional mathematics courses and math electives such as a course in Problem Solving This book provides the necessary guidance to

allow each mathematics teacher to effectively integrate the approach in their classrooms This book is ideal for secondary mathematics teachers of all levels as well as teachers of mathematics electives     **Special Education:Legal Terms, Words and Phrases** Victor A. Ybanez,2009-04-06     Resources in Education ,1997     **Together is Better** Anne Davies,Caren Cameron,Colleen Politano,Kathleen Gregory,1992 Grade level 1 2 3 4 5 6 7 e i p s t

## Decoding **Sample Comments On Math Progress Report**: Revealing the Captivating Potential of Verbal Expression

In a period characterized by interconnectedness and an insatiable thirst for knowledge, the captivating potential of verbal expression has emerged as a formidable force. Its power to evoke sentiments, stimulate introspection, and incite profound transformations is genuinely awe-inspiring. Within the pages of "**Sample Comments On Math Progress Report**," a mesmerizing literary creation penned by way of a celebrated wordsmith, readers embark on an enlightening odyssey, unraveling the intricate significance of language and its enduring impact on our lives. In this appraisal, we shall explore the book's central themes, evaluate its distinctive writing style, and gauge its pervasive influence on the hearts and minds of its readership.
