Brain-Body Parenting Mona Delahooke, 2022-03-17 I will be recommending this book to every parent. Dr. Laura Markham: I adore this book. Dr. Tina Payne Bryson: Over her decades as a clinical psychologist, Dr. Mona Delahooke has helped countless distraught parents who struggle to manage their children's challenging behaviours. These families are understandably focused on correcting or improving a child's lack of compliance, emotional outbursts, tantrums, and other out-of-control behaviour. But behaviour, no matter how challenging, is not the problem; it's a symptom, a clue about what is happening in a child's unique physiological makeup. In *Brain Body Parenting*, Dr. Delahooke offers a radical new approach to parenting based on an approach that considers the essential role of the entire nervous system, which produces children's feelings and behaviours. When we begin to understand the biology beneath the behaviour, suggests Dr. Delahooke, we give our children the resources they need to grow and thrive, and we give ourselves the gift of a happier, more connected relationship with them. *Brain Body Parenting* empowers parents with tools to help their children develop self-regulation skills while also encouraging parental self-care. The result is a deeper understanding of your child, encouraging calmer behaviour, more harmonious family dynamics, and increased resilience.

**The Sense Connection** Natalie Robinson Garfield, 2009 For parents understanding The Sense Connection enhances the skills needed to raise happy, well-adjusted children who will become successful, emotionally balanced adults. For spouses or lovers, gaining insight into the ways in which primary sense channels complement and conflict with each other can shift the balance from discord to harmony. And for friends and co-workers, a firmer grasp of how we as individuals view the world could mean more fulfilling and productive relationships and careers. Can understanding others be as simple as identifying their primary sense channels and adjusting accordingly? Naturally, the sense mode does not define the entire personality. But it can offer you some useful short-cuts to understanding. Consider the many ways we put ourselves and others into neat, tidy limiting pigeonholes. We've heard so many of these expressions: "What do you do?", "Where are you from?", "What's your sign?" These categorizations are merely stereotypes, whether professional, regional, ethnic, astrological, or even the result of The Myers Briggs examination. Worse than that, they re-

dead ends He s an only child She s a Pisces These stereotypes do not allow room for adaptation for coming together and making a connection By adding The Sense Connection to our lexicon we can find a way to understand others quickly and accurately and then modify our interactive style to fit better with theirs whatever their profession cultural background or birth sign
