### **Perfectly Seduced English Edition:**

*The Importance of Feeling English* Leonard Tennenhouse, 2016-07-26 American literature is typically seen as something that inspired its own conception and that sprang into being as a cultural offshoot of America's desire for national identity. But what of the vast precedent established by English literature which was a major American import between 1750 and 1850? In *The Importance of Feeling English* Leonard Tennenhouse revisits the landscape of early American literature and radically revises its features. Using the concept of transatlantic circulation he shows how some of the first American authors from poets such as Timothy Dwight and Philip Freneau to novelists like William Hill Brown and Charles Brockden Brown applied their newfound perspective to pre-existing British literary models. These American re-writings would in turn inspire native British authors such as Jane Austen and Horace Walpole to reconsider their own ideas of subject, household and nation. The enduring nature of these literary exchanges dramatically recasts early American literature as a literature of diaspora. Tennenhouse argues and what made the settlers' writings distinctly and indelibly American was precisely their insistence on reproducing Englishness on making English identity portable and adaptable. Written in an incisive and illuminating style *The Importance of Feeling English* reveals the complex roots of American literature and shows how its transatlantic movement aided and abetted the modernization of Anglophone culture at large.

*I Flew for the Führer* Heinz Knoke, 2020-12-14 Heinz Knoke was one of the outstanding German fighter pilots of the Second World War. This vivid first-hand record of his experiences has become a classic among aviation memoirs and is a fascinating counterbalance to the numerous accounts written by Allied pilots. Knoke joined the Luftwaffe on the outbreak of war and eventually became commanding officer of a fighter wing. An outstandingly brave and skillful fighter he logged over two thousand flights and shot down fifty-two enemy aircraft. He had flown over four hundred operational missions before being wounded in an astonishing last stand towards the end of the war. He was awarded the Knight's Cross for his achievements. In a text that reveals his intense patriotism and discipline he describes being brought up in the strict Prussian tradition, the rise of the Nazi regime and his own wartime career set against a fascinating study of everyday life in the Luftwaffe. He also reveals the high morale of the force until its disintegration. His memoirs are both a valuable contribution to aviation literature and a moving human story.

The principal focus of the book is not on flavor perception but on all of the non-food and beverage factors that have been shown to influence the diners' overall experience. Examples are the colour of the plate, visual, the shape of the glass, visual, tactile, the names used to describe the dishes, cognitive, the background music playing inside the restaurant, aural. Novel approaches to understanding the diners' experience in the restaurant setting are explored from the perspectives of decision neuroscience, marketing, design and psychology. 2015 Popular Science Prose
